The Sinclair Story
Library of Alexandria

With the ancient epic Mahabharat as her source, and the battle of Kurukshetra as a central motif, Mahasweta Devi weaves three stories in which we visit unexpected alleys and by-lanes of the traditional epic saga, and look at events from the eyes of women marginalized, dispossessed, dalit. Their eyes condemn the wanton waste and inhumanity of war. This Kurukshetra is not the

legendary Dharmayuddha of the popular imagination but rather a cold-blooded power game sacrificing countless human lives. How do the women's quarters of the palace, a colourless place of shadowy widowhood, appear to five peasant women whose lives are no less shattered by the Kurukshetra massacre, but who are used to dealing with trauma in a more robust manner? How does their outlook on life and survival influence the young pregnant princess who is abruptly plunged into the half-life of uppercaste widowhood? How does a lower caste serving woman, who was brought in to service king Dhritarashtra when his queen was

with child, view her half-royal offspring and his decision to perform the last rites for a father who never acknowledged him as a son? How does an ageing Kunti, living out her last years in the forest, come to terms with her guilt over her unacknowledged son, Karna? And, having finally voiced her shame aloud, how then does she face up to a crime she has not even remembered: the murder of a family of nishad forest dwellers? These tales, brewed in the imagination of a master story-teller, make us look at the Mahabharata with new eyes, insisting as they do on the inclusion, within the master narrative, of the fates and viewpoints of those previously unrepresented therein:

women and the underclass.

MAHASWETA DEVI is one of India's foremost writers. Her powerful, satiric fiction has won her recognition in the form of the Sahitya Akademi (1979), Jnanpith (1996) and Ramon Magsaysay (1996) awards, the title of Officier del Ordre Des Arts Et Des Lettres (2003) and the Nonino Prize (2005), amongst several other literary honours. She was also awarded the Padmasree in 1986, for her activist work amongst dispossessed tribal communities.

The third edition of this definitive and popular

book, marking the 60th anniversary of the Speedmaster Now includes 17 new Speedmasters and an additional 120 new illustrations. Updated models, serial range, and popularity index make this a must-buy for collectors.

"Moonwatch Only is certainly one of the best books ever written about a single watch model." - William Massena - Timezone.com

"It is an indescribable reference work and a true must-have for every Speedmaster collector." - Forbes

"This book sets a new standard. Not only for books on the Omega Speedmaster, but for watch books in general. I've never seen anything like it, and believe me when I tell you that I could fill

an impressive sized wall with books on watches. Authors of other books or publishers should take a look at Moonwatch Only as well to see how it should be done." - Robert Jan Broer - FratelloWatches "The OMEGA Speedmaster Professional - the Moonwatch - has done things that no other timepiece has done and it's been worn in places that only a few human beings have been." - Captain Eugene Cernan, 'Last man on the moon' There are very few timepieces in the world that deserve a definitive and comprehensive book such as this one. The OMEGA Speedmaster Professional Moonwatch is one of them. Initially designed for automobile racing teams and engineers, the Omega Speedmaster embarked on a very different trajectory when NASA chose it to accompany astronauts heading for the Moon in 1965. Its involvement in the space adventure has propelled the Moonwatch to the top of the list of celebrated timepieces. After years of research and observation, the authors present a complete panorama of the Moonwatch in a systematic work that is both technical and attractive, making it the inescapable reference book for this legendary watch. This third edition marking the 60th anniversary of the Speedmaster has been enriched with numerous new features including a

16-page gallery of astronauts and their Speedmaster, QR codes to extend your exploration and a detailed story of a vintage Speedmaster.

From a Hackney council estate to the House of Lords, this is the extraordinary story of one of our greatest entrepreneurs. Alan Sugar was born in 1947 and brought up on a council estate in Clapton, in Hackney. As a kid he watched his dad struggle to support the family, never knowing from one week to the next if he'd have a job. It had a huge impact on him, fuelling a drive to succeed that was to earn him a sizeable personal fortune. Now he describes his amazing journey, from schoolboy enterprises like making and selling his own ginger beer to

setting up his own company at nineteen; from Amstrad's groundbreaking ventures in hi-fi and computers, which made him the darling of the stock exchange, to the dark days when he nearly lost it all; from his pioneering deal with Rupert Murdoch to his boardroom battles at Tottenham Hotspur FC. In this compelling autobiography, he takes us into the world of *The Apprentice*, and describes his appointment as advisor to the government and elevation to the peerage. Like the man himself, *What You See Is What You Get* is forthright, funny and sometimes controversial.

Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never

been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing ...and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued,

and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

Introducing a NEW addition to our growing library of computer science titles, Algorithm Design and Applications, by Michael T. Goodrich & Roberto Tamassia! Algorithms is a course required for all computer science majors, with a strong focus on theoretical topics. Students enter the course after gaining hands-on experience with computers, and are expected to learn how algorithms can be applied to a variety of

contexts. This new book integrates application with theory. Goodrich & Tamassia believe that the best way to teach algorithmic topics is to present them in a context that is motivated from applications to uses in society, computer games, computing industry, science, engineering, and the internet. The text teaches students about designing and using algorithms, illustrating connections between topics being taught and their potential applications, increasing engagement.

The author of this concise guide to unarmed combat and self-defence is a legend. W. E. Fairbairn (1885-1960) spent over thirty years in the tough environment of the Riot Squads of China's Shanghai

Municipal Police. In order to lower levels of Police mortality at the hands of Chinese Tongs, he studied ancient Chinese and Japanese martial arts, including Ju-jitsu, and was the first foreigner to be awarded a black belt in the discipline. He developed his own system which he called 'Defendu'. At the outbreak of the Second World War, he was recruited by Britain's Special Operations Executive as an Instructor in unarmed combat and expounded the deadly mysteries of attack and defence to scores of trainee agents about to be dropped into occupied Europe. His methods were approved and officially adopted throughout the British army. Fairbairn also

developed weapons and defence aids such as bullet proof vests. He is best known as the co-inventor of the famous Sykes-Fairbairn knife. In this book he expounds his distilled experience of unarmed combat. Fully illustrated, it shows how to deliver deadly blows with hand, fist, knee and boot; wrist, bear- and strangle holds (and how to break them); how to throw an enemy, and how to break their backs; how to disarm a pistol-wielding attacker; and securing a prisoner. The book also contains a chapter on the use of the rifle in close combat by Captain P. N. Walbridge.

PRESENTATION: ROLEX

DAY-DATE, THE "PRESIDENT'S WATCH" The Rolex Day-Date is the first wristwatch which indicates the date and the day of the week. In 1956 Rolex presents one of its most successful and most popular watches ever: the Day-Date. This model is one of the world's most famous Rolex watches; classic, beautiful, functional, useful and elegant. In 2008 a new chapter of this watch, the Day-date II (ø 41 mm) and in 2015 the new Day-Date 40. Known as "President's Watch", this Rolex Day-Date has characterized and influenced the history of horology with developments and innovations during the years. With high definition unreleased images, technical

details, dials variants, history and updated price of every model, this book analyses every reference from 1956 until today. TOPICS In this book the authors examine calibers, dials, cases, bracelets and many more components of every model. You'll find all dials with their variants of color (Stella dial) and material (lapis lazuli, root wood, meteorite, etc). Furthermore: the first Rolex Day-Date, 1800 series, "pie-pan" dials, 18000 series, personalized dials, special series, vintage advertisements, box, papers, Oysterquartz Day-Date, 18200 and 18300 series, Day-Date II, Day-Date 40 and much more. We can read from an official Rolex document: « THE BIRTH OF THE

"DATEJUST" AND THE "DAY-DATE" Not satisfied with having realized a selfwinding waterproof watch, we decided to dedicate ourselves to studying the calendar watch. This is how the "Datejust", which clearly indicates the date on the dial in a small aperture with a Cyclops lens which enlarges it so as to make it easier to read, was born. The next stage was the launch of the "Day-Date", a perfected model which also indicates, with letters, the days of the week. The day and the date automatically change every evening at midnight. » These are the words of Roger Federer, a living tennis legend, about his Day-Date II: "The reason I like my Day-Date so

much is because it is a legendary watch, elegant but with a certain spirit, with a touch of modernity added to its stylish black dial”.

REVIEW OF TIMEX EXPEDITION MANUAL WR 50M

- I only heard of this book recently, here into my third decade of life, and that's a shame really. When certain books hit you during certain stages of life the impact can be profound. This one missed me by a few stages. "A Separate Peace" hit me during the early teens (a perfect time also to tackle "The Chosen"), Catch-22 upon entering college, recently "Underworld." The point I'm laboriously arriving at is that "The Chosen" is indeed a great book, but I wish I would have read it at

fourteen. Its message would have been more poignant and internalized then (not that it was entirely lost on a grown up child of today though). The real strength of Potok's book lies in three areas. First, the insight the reader gets into the American Jewish sub-culture of Hasidim and Orthodox at a critical point in history for Jews (1940's) is truly elevated. Second, the strong characterization between four very different individuals reveals a beautiful relationship development between father and son, friend and friend, and growing young men encountering the world. Third, it reaches out for the soul and stays true to things that matter; a search for spirituality, a tolerance for beliefs, a search for a place in this world (for individuals and cultures), and a search for knowledge. The writing overall was simplistic and the reader is handed many things on a silver platter that could have been presented more subtle, more artistically. Another thing, Sigmund Freud lurks in a mystical "portent of doom" shroud when the character Danny starts to study him. It is never really explained why the other characters in the book have such a fear of Freud. What the reader sees is that Danny is studying Freud and the rest of the characters know for certain bad things will befall to his tainted mind. Despite

these inconsequential distractions, the story, search for meaning, and character interplay more than make up for it. I think I would have given this a 4.5 stars if allowed, but I'm leaning towards 5, baby, cuz more stars are better than less. Give this book to a teen and help them learn tolerance. It's fundamentally important--now more than ever.

- One can't help but feel saddened at the feud between the Barragans and the

Monsalves, which is the premise of this story. The characters are colorful and emotionally riveting... you actually feel sorry for Mani, who has to choose between loyalty to a long-held tradition or the wishes of his expectant wife. I think Laura Restrepo is one of the most talented writers of our generation, and she is able to weave fact and fiction, fantasy and reality into an incredible tale of lust, greed, vengeance and filial duty. Utterly amazing story!
