REVIEW OF NIH STROKE SCALE GROUP TEST C ANSWERS

- This book is one I highly recommend. Anyone who has ever wanted to be a little bit better, a little bit more dignified, this is the story of yourself. It may be a bit long, but it is truly a jewel of a novel. Inspiring and heartfelt!

- It's okay. I tried her recepies on basics like breads and it was bland. I think she's mixing Trini with some other culture's recepie and it's just not working too well. The way she describes ponche crema is not the simple, delicious way a Trini makes it-- We don't add cream of coconut! I should have put the money towards the Naparima Girls book. Never heard one complaint about that book from any die-hard Trini.
