## REVIEW OF BY YANMAR MARINE YANMAR MARINE DIESEL ENGINE 1GM10 2GM20 3GM30 3HM35 SERVICE AND WORKSHOP MANUAL PAPERBACK

- I enjoyed the book but found it to drag more than I liked. I was expecting more along the lines of Devil's bride. I wished Patience had more spunk and less "patience." I don't, however, think the book a waste of time and certainly will read the next in the Cynster series.

- Coupland continues to do us all a favor by describing the world from a previously unnoticed perspective. His innovations in language and storyline are an exciting change of pace from the status quo. Even so, his quirky, often cynical observations, are an acquired taste for those who have not grasped this brand of grunge-techno-pop-iconic-insider literature. He will be studied by young writers in ten or twenty years.
