Some 300 articles, letters, and committee reports regarding the founding of Loma Linda as a training center for health workers is included in this unabridged edition of the original compilation by Elder John A. Burden. He originally named it "LOMA LINDA MESSAGES Divine Instruction the 'Blue Print' Thru [sic] the Inspired Pen of Ellen G. White." The original, and this present edition, consists of about two-thirds (by word count), of articles, sermons, and letters by E. G. White. But, unlike the Ellen G. White CD-ROM, and some printed editions, the original and this present edition contain another one-third by word count of letters by some twenty different authors and various committee discussions and reports. This compilation by Elder Burden is an interesting record of the counsels given and of the struggles that leaders had, on all levels of the organization, as to how to implement the instructions sent them by God. This is a thrilling saga of faith challenged and faith rewarded.

Social media has become a medium for empowering individuals to like and share the things they believe in. We live in a world that is more connected than ever before. Understanding that everyone on earth is connected in some way, within six degrees of separation, will be an important stepping stone in our thinking about social media. Your church now has the power to reach people in large connected networks which include groups of family members and friends. These are the people that are most important and most influential in lives of your church's current members and their extended online network. One of the main reasons why western religion has succeeded so greatly to this day is because it has always taken advantage of emerging technologies... The medium isn't the message; it's the medium that you use to communicate the message. In the 1500s, we saw the printing press emerge, and bibles were being printed for the first time in history. We saw an explosion of what was being made available in written form, with new translations that were suddenly available all over the world... Over the past one hundred years, we have churches moving on to the radio with the early evangelical churches that have now moved into TV and televangelism... and now today we are moving into a new form of communication, where you can distribute your message on digital platforms using social media. The churches that are the most successful and most resonate with people are the ones delivering their message in the places that people are listening. Those who are producing content in a form that is consumable and makes sense in the day and age that we live in, we be to prosper from the fruits of new communication pathways.

Our culture has undergone a major shift: younger generations have less and less interest in the printed word as they become predominantly image oriented. In response, as congregations increasingly learn to be more sophisticated in using newer electronic technologies, they are finding themselves at different places in the quest to understand, acquire, manage, and benefit from the technology boom. Worship leaders in congregations already using some electronic media are realizing that they could be doing more with it, and are seeking new ideas. Congregational leaders scrambling to catch up with a worship committee that has decided it's time for a change aren't sure of the next steps. Or maybe there's been a gift to the congregation to be spent on electronics, and no one is quite sure how best to use the money. Michael Bausch's book grows out of several years' of conversation, personal experimentation, and experience with multimedia worship in one modest-sized, small-town church, while also drawing on the experiences and work of other churches learning to use electronic media in worship. Bausch balances concern for practical issues, such as finances and architecture, with attention to theological integrity and the challenges of sustaining media-enhanced worship. He skillfully shows how the artistic resources of the world around us can enhance our awareness of God's presence in worship.

In this concluding volume, the author powerfully points out the principles involved in the impending conflict and how each person can stand firmly for God and His truth.

## REVIEW OF THE SANCTUARY MESSAGE POWERPOINT PPT PRESENTATION

- I would give Fair and Tender Ladies by Lee Smith 100 stars!! Oh my word! I love this book!! It is beautifully written. I absolutely love Ivy! She is a strong, funny, fascinating character. This book is a new favorite for me!
- "Catspaw" is a MUCH better book than its prequel, "Psion." As with "Psion," I don't care much for its theme that humans, especially wealthy powerful ones, are evil. But, for "Catspaw," that's pretty much overridden by how well Vinge writes and by the tightness of the plot. About the only thing I didn't like in the book was the occasional lapse into unnecessary sexual details in about five different places. Other than that, this is a very well-written book that I highly recommend. If it weren't for the sense of loss a reader would suffer without having read "Psion," I'd suggest skipping that book entirely. Most of the necessary information comes out in this book. But, it's not complete until almost halfway through the book.
