## **REVIEW OF PHYSICAL SCIENCE JUNE EXAM PAPER 1 EXAMPLER**

- Hey to all you readers who look for a good laugh and a scheme of passion, romance, giants, chases, escapes, true love, and of course miracles. I could not recommend a better book for this. Mind you,

the humor is dry, so don't expect to be immediately hysterical. Overall, this book has always been my favorite fairy tale since the 5th grade and even if you have already seen the movie, the book is twice as fantastic.

- Goldman is an excellent writer who has succeeded in fooling many people into believing there was an S. Morgenstern. Like many other people, I have to admit, I felt rather betrayed and let down when I discovered there was no Morgenstern. But it makes me admire Goldman all the more, having his own private joke against the many many readers of this story. As the description says, it's about everything.

Suspense, wit, humor, and romance saturate this story. It would be interesting to have a "Morgenstern copy," just for the sake of owning an "original."
