## **REVIEW OF GUIDA ALLE PAGHE**

- This book doesn't belong on your bookshelf it belongs on your desk beside your workstation. Mr. Packer's clarity, conciseness and comprehensiveness in his coverage of a complex topic is a tour de force that few technical writers are able to achieve these days. Written for an intelligent reader in mind, the subject matter is explained simply, directly and

elegantly. No profusions of analogies, this author knows what he's talking about and he can explain it. The organization of the chapters is first-rate. You can get to the heart of the matter with a quick glance at the table of content. The indexing is excellent. I'm amazed that I can find an entry for most of the topics I'm looking up. It has become my first point of reference for configuration and tuning issues. Do yourself a favour, BUY IT! I'm already looking forward to the second edition of this masterpiece.

- With Herb Payson and his wife and stepson as they begin the vacation of a lifetime. Payson is a witty, experienced sailor who writes about his family's adventures while sailing in the South Pacific onboard their 36 ft. wooden

ketch, Sea Foam. Their journey begins as a necessity, but soon becomes an adventure with a few sailing lessons and detours thrown in. Payson's writing style is simple, funny, informative and addictive. Anyone who dreams of a cruising life should read this book. Anyone who has never even seen a

sailboat would love the self-effacing humor of Payson and the beautiful descriptive narratives of the islands they visit and the genuine appreciation he has of the local people who live there. This book is one that will leave you wanting to read more of Payson's sea adventures.
