REVIEW OF AS PHYSICS EDEXCEL REVISION GUIDE

- I have used this text since 1983 for training new ministers preparing to go into the ministry. It is invaluable as tool for expressing the weight of the call to ministry and what it requires. This particular text is a revised version. I like

the format and content, but for me (it may be inconsequential for others), there are some areas that I am compelled to disagree with (i.e., there is no longer a need for apostles or prophets). As with anything, you take all the good that you can and whatever is not good for you, you disregard or table for further study. There is a great deal of good in this text and I commend it highly for teaching and self examination.

- I enjoyed Howard Fast's "April Morning." One reason is although I do not like history I believe this book presents events leading up to the revolutionary war in an easier way than history books do. I think this is because the book creates fictional characters and

information along with the straight facts so it doesn't lose you and you want to see what will happen next. Although this book does seem boring at the beginning since it just tells about a young boy having regular family problems and disputes, I believe that all audiences would enjoy this book once it starts to go into detail about the war. The only

problem that I see with this book is it goes into so much detail about some of the scenes that it seems longer than it actually is. I would also recommend that you watch the movie before you read the book. The last reason I rated this book three stars is because of the ending. Overall I rate this book three stars and think it is a classic.
