REVIEW OF ROVER 414 ENGINE OIL

- author had done a lot of hard work in getting information about local phrases and convention of old china well done mr clavell
- I like well done "grand scale" stories. Epics like Dr Zhivago or Asimov's Foundation series... Stories spanning multiple generations with lager-than-life characters, true-to-life characters, greed, hate, love, unreasoning jealousy. James Clavell delivers big time with Noble House.Written in the 70's and taking place in the 60's you may be reminded of Mad Men -- especially with the rampant sexism. It was extraordinarily difficult to be a business woman in the 60's -- and even more so in Honk Kong. The story takes about 1400 pages to tell. I have been reading it slowly, to make it last...One thing I like is: Clavell puts you inside the heads of many characters, so that you see [in detail] what the really think, and then what they say to their fellow characters. Very effective. I like the presentation of HK life and culture. Having been to HK several times myself (never in the 60's tho), I can see differences between modern HK and what it must have been like in the 60's.The story is somewhat dated, but still effective. While some aspects of the story may not hold together in 2012, Noble House is an accurate presentation of what it was like in HK in the 60's. Definitely worth a read. For maximum enjoyment, dial back your PC sensibility meter before sitting down to read...There is a TV movie of Noble House starring Pierce Brosnan. It barely scratches the surface of what's in the book...And being a TV movie (subject to heavy censorship), it cannot portray language and events realistically.
