REVIEW OF 2008 TOYOTA COROLLA

- One thing that Hemingway clears up is that bullfighting is not a contest between man and beast. It is a tragedy; no matter if the bull succeeds in killing the matador, and all the picadors and bandierros for that matter, he will still be executed after the fight. This is pure art, and nothing more. I can't explain why to you, but Hemingway says that it is very Spanish, and to understand it you must understand the Spaniards. This is just a general overview of bullfighting. The book is very descriptive and very much more worth your time. You will find that there is something of the bullfight and the muleta in all of us. The three steps of the bullfight are clear and showcase the bull. (It is worth mentioning that these are not just any bulls: they are finely bred fighting bulls that are too aggressive to be good for anything else.) One: the bull shows his strength and bravery in the killing of the horses in the first stage with the picador. The picador pierced the muscle on his shoulder, therefore showing the bravery of the bull if he continues through the pain to gore the

horse. After this stage, the dead horses are covered and the bandierros enter the ring. Two: The bandierros use small spears with hooks on them so they stay in the bull's hide. They are 'set' in pairs in the large hump of agrivated muscle over the withers. These are used to raise the neck of the bull and therefore weakening it so the matador can do his work. In this stage the bull is confused: he cannot (if the man knows his work and is not unlucky) catch the man as he did in the last stage. His courage is useless. Three: The matador enters the arena (or barrera, I believe...it's been a while) to finish the bull. At this stage, the bull is tired and his head is beginning to droop. His shoulders are covered in blood but he stands there arrogant. The matador cannot rise over the horns of the bull to kill in his original condition; therefore, he must tire him over the course of the three stages. The matador does his part with the muleta (cape) and then kills the bull by stabbing him with a sword to his heart. It is here, Hemingway will tell you, that the bull is either said to be killed or assassinated. If the matador is competent, his body will come over the top of the horn. If the bull lifts his head, the matador is gored. Thus, in a proper kill, the bull in the end had a chance to kill again. If the matador pulls back at the last second and just stabs the animal without the threat, he is said to "assassinate." This is excellent. Your friends might look at you a little funny for reading about "killing bulls" and not understand that it is...well, an ART. This is just plain wonderful. Hemingway again does a terrific job, showing more of his journalistic side than in *For Whom the Bell Tolls*. Excellent read, but not for everyone. Get it from the library and read the first few chapters. If you still feel sorry for the bulls after that, you're on your own.

- I usually dislike the unreliability and uncertainty of the postmodern novel, the often tiresome games the writer plays with the reader's credulity, the deliberate undercutting of the illusion of reality. But for me at least Nabokov succeeds where so many fail. This is a charming and convincing narrative, mixed with what strikes me as a deliberately insoluble mystery of identity. I can't tell you why it works; perhaps just because it is extremely well-written without a touch of the self-conscious strain of modern "literary" writing. Lots of humor. Very satisfying read.
