#### **REVIEW OF HAESE AND HARRIS MATHEMATICS SL WORKED SOLUTIONS**

• I heard Tami speak recently and was so inspired that I bought her book. This book really hits home for me. Even though I was exercising regularly, I was always "shoulding" on myself that I should be exercising more, longer, etc. The truth was that this "shoulding" was taking all the fun out of exercising and turning it into a chore. After reading this book, I decided to give myself a break and congratulate myself on the exercise that I am doing. If I feel like swimming 15 minutes, that's all I do. If I feel like swimming 45 minutes, then I do that. And now I'm enjoying exercising again!TAMS is the perfect antidote to those books that give you a guilt trip about exercising and eating.

• Mark went solo camping in the mountain range. He was going to meet his parents at the end of it, and then head home. He heard this hissing sound and went to go check it out. It turns out that it was a rattled snake. When he got close he jumped back because he didn't think that the snake was that close. When he did that he landed in this blue light. This transported him to a place he thought was a different planet. But he figured it was a time far after his. When he is there he goes through pain and a lot of it. He thinks that he is the only one on this "planet". He finds thinks that proves to him that other people are there. He gets captured by tribes and helps tribes. Throughout this time he looks for the blue light but can't find it. He soon figures out that it strikes where ever it wants, and that makes him hopeless.For the most part I liked this book it was full of action and adventure and it is a little funny. I really didn't have any dislike beside some times it was a little confusing. I felt like I could relate to the book really good.I think that if you like fantasy or Gary Paulson books that you would like to read this book. It is full of action, adventure, and it pretty exciting because you never know what is going to happen next.
