### **REVIEW OF INTOLERABLE CRUELTY SCRIPT**

- When I was a teenager, I was stunned by "The End of Eternity". When later I started reading the Empire and Foundation novels, I was unpleasantly surprised by the style simplification that seemed to accelerate with every novel. Now, when I've read them all, I think I understand what happened: there was no time for a better literature craftsmanship, new universes took all the time. Somehow, it resembled Federico Fellini's movies - same feeling of creation of the worlds just in front of you.
- The second book in the Foundation series continues the narrative of the first; it chronicles the defeat of the decaying Galactic Empire by the Foundation, and its subsequent defeat by the mutant intelligence that is the Mule. Asimov's books are an almost perfect blend of suspense, action, dialogue, character-building, world-building, narrative, and plot. He knows how to keep the pages turning. Even the less interesting half of the book (the first-half) is still enjoyable - it's just that the second part is so much more interesting; the twist at the end is especially something to be savored. Like all his books, the joy comes from not just the narrative itself, but the situations that Asimov places his characters in, and how they ingeniously improvise solutions to their dilemmas. The Foundation series is, irrefutably, classic science fiction, and it makes one wonder why Hollywood hasn't taken these literary gems and processed them into something less fine and lacking luster. One minor grievance; some phrases seem to reappear in multiple books of the series. Asimov seems particularly fond of the adjective "sardonically" - but this can scarcely be deemed a flaw, just something that one might notice.
