REVIEW OF SCAN BLACK BUTLER KUROSHITSUJI 127 VF LE MAJORDOME EN

- C.S. Lewis makes a perfectly reasonable argument with most of his book. He uses God as an explanation for the existence of moral law. Many argue that no proof can even be given for the existence of moral law, but I have not yet seen a proof of its nonexistence either. Most evidence seems to point to its existence. Society itself is built on the acceptance

of certain moral principles. Lewis goes into the differences between the moral law that humans follow and any rules that govern animal behavior, and they are obvious even to the average person. For those who say that belief in moral law is un-intellectual, try reading Plato, Immanuel Kant, Aristotle, or any of the other great philosophers in history. Lewis simply assumes that a moral law exists, and credits God with its origin. He does not PROVE this existence as some say, but he does give a reasonable explanation for his belief. If the existence of God could be proven, all people would probably believe in Him. There would be no need for FAITH, which the God of the Bible seems to value highly. Never will a writer or philosopher like Lewis actually prove that God exists.

I see belief in God as a choice. His existence will never be proven or disproven, so each person must decide which position to believe in. Neither choice is more or less intellectual than the other. However, it seems to me that not believing in God is the much riskier decision of the two. Lewis himself said that if one person believes in God and another doesn't, and there is no God, then they both lose everything at death. But if there is a God, the one who believes gains everything, while the unbeliever loses everything anyway. As for belief in Christianity, I urge everyone to look closely and open-mindedly at Jesus Christ, as Lewis does. Everything about Christianity centers on Him. He is the one thing that separates Christianity from any other religion or belief. If He

truly was the son of God, then everything the Bible says is true. If not, then he was just a pitiable lunatic who has led millions of people to waste their lives. I do not see myself (or C.S. Lewis) as an unintelligent person, yet I believe that Jesus Christ is the Son of God. I urge others to think carefully before they make a decision on this subject. It is the most important decision you will ever make.

- I've never seen C. S. Lewis do such an incredible job at explaining something, especially something so complex as Christianity. He knows how to keep it simple and level so it's usually easy to understand but uses interesting analogies along the way. This is a book I would want any atheist friend of mine reading just to take it into perspective

and think on it. It would be well worth the money.
