## REVIEW OF STAR WARS THE ESSENTIAL GUIDE TO WARFARE

- When I was in high School many moons ago, there were three books about the future that were required reading. Brave New World, 1984, and Fahrenheit 451. All three novels were dark looks at the future of a society that had lost its way. Fahrenhiet 451 is an a dark tale about the problems of modern life and how normal things taken for granted can be turned inside out. Bradbury's hero Montag, is a firemean that has the job of actually setting fires to burn books. For those of you who do not know, Fahrenheit 451 is the temperature that paper catches fire. His world is about modern convenience and the lack of intimacy that society had developed over time. His chance meeting with another leads Montag down a path from book burner to exile on the run trying to save what he once destroyed. Bradbury tells a tale of the redemption of a man and the hope of society by learning what is important. It is an excellent read and very thought provoking. For those of you who do not think that books can ever be burned, I named this review what I did because this book is on an official banned book list in the United States. What do those who want to ban books to our children fear from this book? Makes one wonder.

- Being forced to read it in school for its "so called"relation to censorship (sp?) I would have to say !!BURN IT!! Althoughthe book is about censorship and why/how it is wrong I can't say much good about it. The theme itself is good, but the story itself is trash. One of the most un-realistic ideas i've ever heard. First off, everyone in the country is an idiot. Second, that includes the hero. Third, even those who have minds of their own have no intellegence. And finally, way to many cracks in the foundation of the story and two many holes in the story itself.L8r.
