REVIEW OF MANUAL OF COMMUNITY DENTISTRY

- This book and the entire Wheel of Time series are simply great! It is a fairly easy read and is an excellent way to introduce fantasy fiction to any teenager

or young adult.

- While I enjoy the series, it is no Tolkien! The stories are too long, and here in book two I'm already getting completely fed up with the interactions between the sexes. Men don't understand women, women don't understand men, all Aes Sedai are manipulative and

untrustworthy.... Some good developments in the story, but as the cast of characters grows, Jordan needs a synopsis of previous stories and a much much better and more detailed Glossary. Is the Great Horn important enough to warrant a whole 700 page book? We'll have to wait and see if it ever re-appears in later books....
