REVIEW OF FANUC FAPT PROGRAMMING MANUAL

- After reading the other reviews, I was eager to read this book. Unfortunately, I was quite disappointed. There were three main problems. The first was that the writing was far too cute for my taste. This was true for both the history and the math sections. The author seemed to be straining to find clever and erudite ways to say things. I assume the intention was to add color and interest to the text, but I found it cumbersome and irritating. The second problem was that the author frequently flicked off allusions to the inner thoughts and motivations of Newton and other participants in the story. I couldn't tell if there were any historical bases for his interpretations, or if they were just Berlinski's flights of fancy. It came across to me as gossipy and catty. The third problem was that with all the cute writing, the book actually contained very little information. I thought it could have been tightened up to about 50 pages, and been much more readable. The good news is that the book is a very fast read.

- Wow! "There Must Be More Than This" has helped put me in touch with my deepest spiritual hungers. Judith Wright has captured the essence of what is important -- being on the journey towards love, connection, and what is important in our hearts. Everyone will relate to the topic of soft addictions, the things we do to distract ourselves from our feelings and our needs. Some of the examples Judith uses will apply to every reader - internet surfing, shopping, eating, overworking, gossiping, etc. I was also struck by the idea of mood addictions, the way people may use excitement or depression or other attitudes to keep from feeling their feelings. Judith Wright does not stop at helping us recognize these soft addictions. She focuses on using them to identify our deeper needs and hungers, so that we can truly be fulfilled and satisfied. This is a wonderful book that has helped me and will help you.
