### Review of Hr In The Cloud Deloitte

- If Patricia Cornwell's work gets any darker her readers will have to take prozac before opening the cover of her books! Overall, I was riveted by the story in "Black Notice". The disease suffered by the serial killer was really eerie. Kay's sleuthing skills were right on target. Marino was as grossly endearing as only he can be. I've even gotten comfortable with Lucy and her "friends". However, there were two things that bothered me with the plotting: someone is out to discredit Kay(again) and the confrontation between Kay and the killer is played out at her house(again). These scenarios are getting old. I hope things lighten up alot for Kay in the next installment. I also hope that Ms. Cornwall finds other ways to rid Kay of lovers other than killing them off. Especially in such heinous ways! Her endings could use a little more finesse as well.

- Ms. Cornwell needs to put her Dr. Scarpetta books to rest. They have become so predictable. Could anyone not figure out the ending? Her new love is so hard to believe that it's ridiculous,and we are constantly being assaulted by Marino's foul mouth and stupid behaviour.When will Ms. Cornwell come up with an original story? She's rehashing the same old thing over and over. Thankfully I got this book out of the library and didn't waste my money.
