REVIEW OF THE ECG IN EMERGENCY DECISION MAKING 2E

- I loved this book and would recommend it to anyone. The protagonist is angry at the gods for the problems in her life. She questions their existence and condemns them for their arbitrary nature due to the difficulties that she faces. As I read this work I could see many of less desirable traits I possess in the protagonist. I, like many people I suppose have bemoaned "why me" and "when oh Lord is it my turn". Reading this book provides a mirror of such emotions. I highly recommend this work for

anyone but especially for someone who might wish to indict the Gods.

- I have read over twenty books on African Safari and this is one of my favorites. I like exciting stories about dangerous game and majority of chapters in this book deal with the "Big Five". John Taylor recalls nearly three decades of hunting, mostly poaching in what used to be British east African colonies, in early to mid twentieth century. The book is full of exciting and interesting hunting stories about Elephant, Rhino, Buffalo, Lion and Leopard. One of the best African Safari books.
