REVIEW OF FAKTOR KEGEMILANGAN TAMADUN ISLAM UKM

- Andrei Codrescu has created a savory paprikash, served with Tokaji and the

occasional bloody sausage. His story not only encompasses the anguish of a contemporary journalist, who bears a physical and professional resemblance to Codrescu, but the brutal history of Inquisition-era Europe, revolving around the Blood Countess, Erzebet (Elizabeth) Bathory. Both Codrescu and his protagonists are relatives of the Countess. Journalist Drake Bathory asks a judge to convict and sentence him to death for a murder he has committed. Anchored by his story, the narrative jumps from the courtroom to Drake's misadventures among contemporary neo-Fascist Hungarians, to the mazes of towers, passageways, dungeons, and stairways of not one, but several, including the Čachtice Castle, the exemplary creepy castle, where

Elizabeth Bathory murdered an unknown number of virgins and spent her last days imprisoned in a walled chamber. It is possible that Blood Countess would be less compelling to a reader who did not already have some knowledge of the Countess's reputation and Carpathian geography and politics. I do wish maps of the region and castles had been included, but they are easy enough to find elsewhere. Codrescu's prose is exquisite and his book is a lush and

bloody delight.

- Nearly all of the examples were written using Perl, but the few pages written with PHP contained some very useful nuggets! I especially liked the use of the `explode()` function to split a table-formatted html report into multiple PHP array elements for individual processing. Now, if only the authors had included examples written for ASP, Cold Fusion, etc. they could have appealed to a much wider audience!
