literary information, publication reviews, and reviewing pointers. You can likewise follow us on social networks to remain current with our most current offerings.

So what are you waiting on? Begin exploring Oraciones Con La Palabra Palo Oraciones De Ejemplo summaries today and uncover your next terrific read!

REVIEW OF ORACIONES CON LA PALABRA PALO ORACIONES DE EJEMPLO

- This is a difficult book to review. However, I will try to make my comments as helpful and balanced as possible - fully aware that many may well disagree. When I read that this book had been written by an Author aged fifteen (when he started), I approached it with enthusiasm - and an open mind. Surely, I thought, for it to get published, it must be way beyond the talents of most young writers. In many ways it is; I certainly cannot imagine many people of that age having the patience to write something of this length. So, five stars for effort! However, I have not awarded this book five stars. Why? Well, although an excellent effort for one so young, it undoubtedly reads as the work of an immature writer with much still to learn ... and when I pay good money for a book, I would prefer not to be reading someone's apprenticeship material, no matter how valiant the attempt. There are countless other reviews all saying the same kind of thing and quoting specific examples of immature writing style - so I won't bother to do the same. I just genuinely wish I'd taken notice of them, instead of being lured by the marketing - and a nicely illustrated front cover. Undoubtedly, this young man is a bookseller's/marketer's dream. In interviews he comes over as intelligent

and engaging. And this is, at least partly, what is helping to sell what would otherwise be a rather amateurish and overlong book. At several stages whilst reading, I tried to analyze how it got as far as publication. I later learnt that this was initially a vanity publishing project (self-published), and after an enthusiastic response (probably as a result of vigorously publicizing the youth of the author), a legitimate publisher bought the rights, (no doubt thinking they might as well have the profit as the author). Now I understood. There is always a problem when this situation occurs; it is usually published by the new publisher in its original state - rather than having the enormous benefit of a thorough editing. Tightening Eragon by about a third could have worked wonders alone - but that would be just the beginning. Considerable improvements are needed with regard to plot (too dull and predictable), pacing (waaaaay too long and slow), characterization (too many characters distinctly two-dimensional) and lacking originality (nearly everything in this book has been done before by somebody else - and done far, far better). No doubt, the next epistle in this series will be a huge improvement. The young author will

hopefully have developed and honed his craft - and a second book will have the benefit of the editing process. But meanwhile, if you're thinking of buying this book here's my advice: If you are the type of reader who when offered an epic meandering tale about knights and dragons, will cheer, grab it with both hands and gobble your way through it - no matter what the quality; then go ahead and buy it - this book is for you. However, if you are a discerning reader with limited time, then I heartily recommend buying something else (preferably shorter). There are plenty of debut novelists out there who have spent many years honing their skills before expecting customers to part with their hard-earned cash; try one of their books instead.

- Mr Paolini's writing aside (it's serviceable, but unremarkable), I find it highly amusing that so many people accuse him of ripping off LOTR and Star Wars. LOTR owes much to Scandinavian Mythology (which Tolkien revered), and George Lucas took the plot for Star Wars directly from Akira Kurosawa's film "The Hidden Fortress". While there may not be much "original" in "Eragon" or "Eldest", Paolini's source material wasn't entirely original, either.
