REVIEW OF ENGLISH FOR BUSINESS STUDIES THIRD EDITION TEACHER

- My 4 and 6 year old
kids love the little
Critter books,
especially the 4 year

old. They love the the
funny pictures and how
Mom and Dad usually
add amusing
commentary to the
text. Just a Bad Day is
entertaining and can
help young children
learn how to deal with
negative feelings and
situations.... I am glad I
went ahead and
bought it. This book
hardly teaches terrible
lessons. If you can
think back to when you
were a child, the
incidents in this book
are all valid reasons for
having a bad day
(although my kids love
oatmeal and I don't
think a little book like
this is going to change
their minds!). On the
contrary, this book has
some positive things to
say. I know my kids
indentify with the little
Critter in this story (as
they do in all the little
Critter books) - what

kid hasn't been upset by things out of their control - with a rainy day or a broken toy, or the annoying actions of a sibling? ...In identifying with Little Critter, children learn that they're not alone and that their feelings of boredom, frustration and anger are valid. And that negative feelings can quickly turn around and become positive And being able to laugh at the pictures shows kids how to find humour even in difficult situations, which is something that can be important to them while growing up and learning's life's lessons. We sit down as a family and read this book together - we even act out the situations, talk about how the Critter is feeling and discuss

what positive things HE might do to improve his day (especially if you still don't like the idea of a new toy, a material object, being the reason for his day getting better) or how he can plan ahead to ensure that the next rainy day is good one....

- Leaving The Fold: Testimonies Of Former Fundamentalists I thoroughly enjoyed this book. Mostly because I could identify with so much of the personal experiences of the people who wrote in it. Ed Babinksi has collected various people's "testimonies" of their experience with fundamentalist Evangelical Christianity. From a review on Amazon, "33 former Christian fundamentalists explain how and why

they first embraced, and later abandoned, that belief system. Of these, eight have become atheists, eight (including Babinski) agnostics, one a wiccan, and one a Zen Buddhist; the remainder have remained Christian". The ones who remained Christian still believe the major tenets of Christianity, they are just not so hard lined as they used to be. I don't like reading books that just slam Christianity and I don't believe that this is one of them. It is full of honest people who have honest questions and/or problems with the modern fundamentalist version of the Christian faith. The reasons that they each had for leaving the faith are varied but to me they all seem

honest and I believe that they are truly seeking after what is true. Anyone who is doubting their faith or struggling with things that just don't seem right, I would recommend reading this book. It is very encouraging to see what other people have gone through as it can often feel like you are all alone being tormented by the doubts of your mind. I would also recommend this to Christians who are not doubting their faith but may know someone (like me) who either is doubting their faith or has left the faith for honest reasons. This will give you insight into what goes through a skeptic's mind and should help you in dealing with such doubters. Hopefully it will give

you more compassion and an understanding for someone who finds themselves in such a place which on most accounts is not something that you just choose to do. Changing your beliefs or leaving your faith all together is quite possibly one of the hardest things that an individual can do and it is not something that anyone chooses to do lightly. To read more of what Ed Babinski has written you can see his articles posted on infidels.org at this link or you can also go to his personal web page at <http://www.edwardtbabinski.us/> .Jeffconsciencebound.com
