REVIEW OF IVECO DAILY 35 10 REPAIR MANUAL

- This is the most worthless waste of

paper I have ever laid my eyes on. To say that behavior is biological is to say that human beings are software driving bodies. Women and men behave the way they do because of SOCIALIZATION and there is only minimal impact from normal physical differences (insanities are excepted, as they are aberrations).

- This book is boring and idiotic. Only a fool would believe that our ancestors were gorillas. If you believe that we descended from gorillas and/or lizards, you probably also believe that The Earth revolves around the sun. The Earth is stationary, just like it seems. The sun revolves around The Earth, just like the moon (except hotter). Use your noodle. It's common sense. The Lord created The Earth (and the heavens) out of sawdust, clay, dinosaur bones, and mud. He did so

in six days, and slept on the seventh day. This occurred 6000 or 7000 years ago. Evolution could not have occurred in such a short period of time. Wake up, you've been duped.
