REVIEW OF COST ACCOUNTING A MANAGERIAL EMPHASIS 2ND EDITION SOLUTIONS

- I have read many books of this genre, more than one of Mr. Holzer's. This is by far his worst work. The biggest problem is the way that he writes. It is apparent in his other books, but not as prominent. He comes off as if he is the world's best ghost hunter and that his opinion's are fact. Many times he states in the book that he doubts and discredits any person that hasn't in the past had some kind of psychic occurrence. There is no history to any "haunt". He and his medium are the

only credible people in any story. My overall consensus is that he is getting old and is trying to cash in on a few more books. there was no thought or follow through, just cocky, arrogant fatigue in this book. If you want to read a real good ghost book, check out Citro.

- This book has changed my life for the better! Changing your first letter is the toughest (or it was for me). Then, after

changing my second letter, I got awesome immediate results the same day! This is a book that you read through and use slowly. It does take practice changing each letter. Take one at a time until you've mastered it and you'll see your life change before your eyes. Due to the life changing aspects of this book, I'm looking at doing Handwriting Analysis as a career now. Thanks Vimala for your great work. Thanks!
