REVIEW OF THE RESONANT INTERFACE FOUNDATIONS INTERACTION

- This is a timeless book that seems more true with each passing year. Despite being written by Orwell in the 40s, this classic novel is still relevant. Instead of the Ministry of Information, we have the TSA and other government authorities telling us things we know not to be true. Orwell was a prophet when it came to predicting how governments would try to keep control of information. Fortunately for us, there is no "memory hole" down which inconvenient facts can disappear - we have the Internet and the free flow of information. As Orwell wrote in his book, the story of our age is one of government against the individual. 1984 is a great cautionary tale and a prescient warning to all who love liberty, to be on guard against tyranny.
- A very well written piece of literature for its time. In light of the current state of affairs, it is rather frightening. It was a good read in High School and an even better read today.
