## **REVIEW OF API SPEC 8C SPECIFICATION FOR DRILLING AND PRODUCTION**

- Dr. Gordon lays the foundation for successful leadership. His book describes the very basics that must be mastered by leaders who wish to be effective. The L.E.T. tells you how you acquire followers and what turns off your subordinates. He describes listening techniques as no one else has ever done. If you only purchase one book on

leadership this should be the one.

- I enjoyed the book, but bought it basically for the title, and there was only

1 or 2 chapters dedicated to his actual near death experience. Might have been more aptly titled the Life of Dr Eby.
