REVIEW OF INTERIM ASSESSMENT UNIT 1 GRADE 7 ANSWERS

- This book, unlike virtually every other O'Reilly book I own, almost completely fails in its effort to educate the reader. Each chapter starts out with a page or two of well-written text, then, just when you become interested you're faced with page after page of configuration settings, with very little explanation of what each setting does or, more importantly, why you would ever care what it does. Worse, the authors tend to use a lot of words where a few would have been better. For example, instead of just saying

that Apache would report an error they say "you have a problem that's signaled by disagreeable messages at the client end, plus equivalent stories in the log files on the server..."Huh?As I said in the title, you'd be better off printing the Apache help, because at least it's free.

- Stephanie Laurens is an unbeatable author... While her Cynster Series was, by far, the best I've read , this book is worth reading also.."Kit"(Kathryn) & Jack are perfect foils...With adventure, Romance, a touch of comedy, their story is entertaining, and well-paced and holds your interest. (Which to me is VERY important.. I cannot tell you how many books I have partially read, found

lacking but maybe worth a second try, and marked to come back to...and never did..) This book holds your attention, right from the beginning, and I definitely recommend it...In fact I recommend any book with Stephanie Laurens listed on the cover !! ^2-thumbs up^
