REVIEW OF

STANDARDIZED TEST PRACTICE CHAPTER 12 CHEMISTRY ANSWERS

- Asimov draws many parallels with history hear on Earth. The planet Florinia is the old south with kyrt as its cotton and the natives as African slaves. Trantor is the mighty expanding Roman Empire. The planet Sarth (sp?) is Europe and America consuming the produce of the undeveloped third world (Florinia). Asimov also includes technical detail that enhances the story's realism. Its sharply drawn characters, beautiful imagery, social commentary and interesting plot make it Asimov's best book.
- Asimov is Asimov,

however this review is about the quality of the book - basically it's poorly made. The paper has the quality of school tablet paper and is very flimsy and easy to tear. The cover has barely thicker paper than the contents, plus the printing is very light and is only readable in bright light. This book is a one or two time reading copy and won't last but a few years even on the shelf. Amazon has let the quality of their books at this price point go down.
