## REVIEW OF

## APPORTIONMENT OF INCOME FOR CORPORATIONS AND PARTNERSHIPS

- I respectfully note other reviewers (including the one who identified his or herself as '1/4 Greek', whatever that means -- as if humans were nationalist recipes) who found this book uneven. Fair enough. Me? I loved it. First, the translation - which is stupendously crafted, bringing out wonderfully archaic speech patterns and anachronisms to represent the Cretan dialect -- deserves high praise. My one complaint is the very unfortunate title: "Zorba the Greek", which is an invention.

The original title really should be rendered, "The Life and Works of Alexi Zorba." Zorba, emphatically is not 'Greek'. As a Macedonian, in fact, his national subjectivity is constantly questioned and subverted depending on his context. In the last series of letters he writes to the unnamed narrator, he changes his last name to mimic the surname of the country he's in: Zorbescu, Zorbic, etc. Because Zorba, ultimately, represents the Nietzschean will to self-independence, a Dionysian revelry against the methodology of 'art' that the Apollonian narrator represents. But such philosophical categories are precisely the modal habit of thought that Zorba strives against. As a character study, Zorba represents the great 'non serviam' of S. Dedalus or Milton's Satan. If you're looking for a politically correct hero, you won't find him. In every way, he represents the prejudices and chauvinism of his time. (For that matter, Kazantzakis is harshly critical of Cretan provincialism, despite his admiration for its cultural longevity. The climactic massacre scenes makes quite clear the critique of misogyny in this text. Judith Butler won't be impressed, but I think for it's time it makes a strong indictment against mustachioed violence.) The novel itself, largely anecdotal, mostly acts as an observation not just on 'human'

friendships, but of the possibility of 'friendship' with God. Kazantzakis's debt to Buddhism and Bergson occur on every other page. Some of the most enchanting meditations concern whether or not religion satisfies a spiritual hunger, an innate desire for the mystical, or an overbearing artistry that conjures up the sublime as a counterpart to the ego. But for me the most probing question focusses on culture and nation: the boundaries, definitions, and traditions which become a composite sketch of the collective. Why do people cheer and go mad watching a squad of eleven men chase a pig's bladder around an empty field (Euro 2008)? Why wear a flag pin on your lapel? Why mourn the loss of folklore? Whose folk is it, anyway? So much of this work represents Kazantzakis's love/hate relationship with the historicity of Greece, its ancient shadows and its 20th century ideological reformations. As Zorba wished for his tombstone, "Here lies a Greek who hates the Greeks." Because this novel is, after all, a love song for islands. Kazantzakis's landscape tones shimmer on every page, delighting in a cartographic imagination -- the contours, gulfs, chasms, coasts, and tidal pools of the Aegean. Bits of near-Neruda like elemental majesty eddy around in long passages offered up the glory of nature.

But where do people fit in with all of these indifferent tides? That's the unassuming, and unanswerable question, of the book. The 'santouri', or hammered dulcimer like instrument, first ingratiates the author to Zorba. And to the santouri we return in the final paragraph, its melody continuous in memory, strings retaining vibration even after our friends have left us. I thought it was a beautiful, beautiful book. Once upon a time, novels weren't afraid to soar with sentiment.

- Zorba The Greek by Nikos Kazantzakis is one of the truly finest books I have read. It is full of life, warm heated exploits of a 65 year old Macedonian Greek who meets a bookish man, "Boss",

from Britain. The writer has come to Crete to take up business as part of his inheritance. It is a lignite mine. Zorba is a man of many skills and succeeds in persuading the Boss to hire him to cook and supervise the work in the mine. A friendship begins where the different look towards life, philosophy, religion, women, humans as seen by the Greek Zorba and the English born Boss follows. Sprinkling of Buddhism is well placed to challenge the prevalent beliefs of Christians and their claims over God and world. While Zorba represents the zest of life, sunny spirit of warm weather countries the Boss represents the logical, cold weather view.

Zorba wins. He shows that Christianity and the claims of West Europeans are often not what God would want for his children, the humans. The descriptions of the land, the beauty, the smells of orange blossoms by Kazantzakis come to life in the readers. Savagery and brute behavior of Greeks is also depicted as in the murder of a woman by a mob. Zorba despite his past horrors and views of women comes to her defense risking his life. In this the writer has raised the character of Zorba beyond the claims that he is a womanizer and out to satisfy his sensual urges only. He challenges the religious views of

Christians, monks and ridicules their fanaticism. God and Devil are the one and same for him and change their place. For this perhaps Kazantzakis earned the wrath of religious Christians. Any-way if you are a deeply religious Christian or feminist this book may be offensive and please do not read it. But if you are inclined towards humanistic look at man kind and are willing to look beyond and see that God created all life including humans free from guilt, to live and be happy without being offensive then this book is a must read. A great piece of literature, for Zorba will live on for a "1000 years."
