REVIEW OF

ANTENNA

THEORY COLLIN

ZUCKER

SLIBFORYOU

- Yes, the material is pretty complex, but this does a pretty good job of explaining his side (now, what about the other side?)

- After I bought this book, I started to read it and could not put it down. I read the entire thing in two days! Michiu Kaku has become one of my favorite authors because of this book and I currently have almost all of his books. All I can say is that he is a genius plain and

simple. I have to reread pages of information before I can grasp the details of these concepts, it is excellent writing. Excellent!!
