REVIEW OF CHAPTER 14 SECTION 1 HUMAN HEREDITY

- Your average ho-hum fantasy good guys win, bad guys vanquished. Cliched, poorly written. Good stuff for a tweener maybe, but don't expect to get any originality with this book.
- Many have said that Christoher Paolini has taken parts of many authors stories and woven them into this book, I would agree that this is true, but having read many of the similar stories it only makes the book better. It's rather like a continuation of those stories, but in a parallel universe. This book is wonderful for all ages and I will and have recommended it to many of my friends and family. That being said I have been counting the days until book two comes out in the series!
