REVIEW OF SCIENTIFIC DICTIONARY ENGLISH 2 BENGALI BING

- Something Wicked This Way Comes is a horror, narrative, and mystery type novel. I say that it is a mystery type of story because it gives clues in the beginning of the book. As the characters receive the clues, they lead up to even bigger events inside the book later on. The three main characters in this novel are two boys and their father. In the story, one of the boys is the narrator of this book so that is why it is also narrative. This book is a fictional type of story. This book begins with a sales man talking to both of the kids. The sells man tries to convince the kids to buy a product for the roof. Just like in many movies, something seems wrong to the characters. In this particular case, it is about a thunderstorm and it will burn their house roof. Sure enough, one of the kids believes him and buys the product from him. As they go up to install it on the roof, they catch a whiff of something burning in the air. If you enjoyed that chapter then maybe you should check it out yourself

- I have never made wreaths before, so I enjoyed that this book gave great basic tools for starting and explanations of the wreath elements. The book has wonderful ideas and explains clearly how to make each wreath.
