REVIEW OF FUNDAMENTALS OF ENGINEERING THERMODYNAMICS 7TH EDITION SOLUTIONS MANUAL SCRIBD

- Dharma Bums is truly Kerouac at his finest. The book is about his "Zen Lunacy" and his wanderings on the west coast with his mad friend Japhy. This book makes you want to jump up, throw together a rucksack and head for the mountains to meditate. This book just takes the classic On the Road philosophy and takes it a step further. I liked On the Road I highly recommend this book for it is a classic. Further Reading: The Subterraneans, Big Sur

- I enjoy Childress' books mainly because he comes across as very honest, although he engages in too much speculation to be taken at face value. Overall I find his books a very engaging read, and the speculative aspect, though often unscientific, is very entertaining. Moreover, the amazing amount of study and travel he has done brings a certain amount of credibility to his work.
