REVIEW OF LIFE APPLICATION STUDY BIBLE NLT

- "The Greatest Generation Speaks" is an easy follow-up to The Greatest Generation: In this little book, Tom Brokaw forwards many of the letters he received after writing (with a lot of help) the first book. Perhaps the follow-up is a little better because more space is devoted to the words of those who lived through the Depression and World War 11. Their experiences speak for themselves. The over-patriotic and sappy text that introduces each of their letters just gets in the way. I have no doubt about Mr. Brokaw's good intentions. And I don't want in any way want to show disrespect toward the courageous men and women who are the subjects of these two books. But bad writing is bad writing, and this applies to the 20 percent of the book that Mr. Brokaw and his assistants produced. The subjects deserve simple respect, not a gusher of uninhibited, flag-waving adulation. If you are interested in reading more compelling, honest and well-written first hand accounts of this era, I suggest "The Good War" by Studs Terkel.

- Compared to lone-assassin books by former Commission staffers David Belin and Gerald Ford, this book is a delight to read. Jim Moore entered the case as a young conspiracy believer himself, and now alerts others to the fact that the conspiracy community has done much to deny the American public evidence of Oswald's sole guilt. Where Moore falters is in his shooting scenario; his "Final Solution" doesn't work as well as that in Case Closed, which utilizes some analysis made known after Moore's book appeared. I like Conspiracy of One because it's an enjoyable read that doesn't resort to sensationalism, innuendo and conspiracy hysteria to recollect the tragedy of JFK's death.
