## **REVIEW OF INTERNATIONAL DT466 ENGINE MANUAL**

- Dorothy B. Hughes is certainly a powerful (and sadly over-looked) writer. In "In a Lonely Place" she depicts a vivid, hypnotic vision of post-WW2 LA, and she draws a scarily realistic and sometimes sympathetic portrait of "protagonist" Dix Steele. The novel is notable for its narrative twists & turns, its suspense (that most of the 'action' is not explicitly shown is both terrifying and brilliant, from a technical standpoint), and its tendency to turn both traditional noir structure and stock characters

on their heads, so to speak. If you like noir or Cold War-era-informed fiction, give the unusual, the compelling, and the bone-chilling "In a Lonely Place" a chance.

- This is a great book... we have made about 5 recipes from it so far and most of them have been good, though one was a little bland and I had to doctor it. One thing I like about the book is that most of the recipes give you 4 servings, which is great when you're cooking for two. You have enough for leftovers the next day, but you're not eating leftovers over and over again for a week. There is a whole section of recipes for use with "on hand" ingredients... it gives you a list of 20 or so ingredients to keep on hand and a variety of recipes you can make with those ingredients. Some of the recipes in the book use convenience foods, like Stouffers frozen pot roast dinner, so you have to be careful of the sodium (there's a warning right on the recipe about the sodium content). I substituted Smart Ones pot roast dinners, which didn't make for a cheap recipe, but it was healthier than the other options and easy to make.
