REVIEW OF INTRODUCTORY KINESIOLOGY GRADE 12

- I took a course in school that used this book and I really enjoyed the book and what it taught me about systems

engineering. The authors do a great job of walking the student through the systems engineering process, and giving a general overview of the steps. The later chapters expand upon this overview to give the detail needed to actually carry out the process. The last part of the book expands upon the "-ilities" of systems engineering which are the authors' particular areas of interest. I think anyone interested in systems engineering should get this book, it's a great resource. A few things I didn't like was the constant referencing of graphs and figures from previous chapters, it really inhibits my learning when I have to keep flipping back and forth to follow a train of thought. There are also a few chunks of the book that are very, very hard to follow the logical train of thought and require meticulous attention to the detail, and often require rereading. I'm hoping the authors will put out an updated and expanded edition soon, that compensates for these shortfalls.

- The Dean's December tells the story of Albert Corde, one of Bellow's memorably depicted intellectual characters, a Chicagoan of 'pullman car' gentility, a college dean and sometime journalist, who waits for a dying mother-in-law in chilly Romania, behind the Iron Curtain, and also for the result of a trial of two blacks accused of murdering a white student, a trial on which he has commented. Corde is perfectly placed in his predicament for Bellow to explore the great themes that were brewing and swelling within his colossal mind at the time, some of them current and political, some of them the great eternal issues of life and existence. All are mixed in here. Corde reflects on the value

of his intellectual life, surrounded by poverty and struggle in Romania, on the essence of virtue in ruthless capitalist societies where poetry and art are trampled by the one-dimensional value axis of money versus poverty. Corde is a patrician intellectual, someone who escaped from the blocks fast in life, publishing an influential article on the Potsdam conference while still in his early twenties, but has stagnated along the way, in a similar manner to his precursor character Tommy Wilhelm in 'Seize the Day'. Others, most notably the high-flying political commentator Dewey Spengler, have played the scales of life more practically, accepting society for what it is, eschewing old-fashioned romanticism - their shared childhood reading of Shakespeare in Lincoln Park, and has played life as a political game. Corde, the philosopher, becomes trapped, and ponderous, much like Hamlet, and is denounced and outflanked by Spengler in a splendid denouement at the end of the novel. Not all of the Dean's December is sublime. There are many passages displaying Bellow's worst fault - the pretentious, intellectual name-dropping - Freud, Marx, existentialism, you name it, sprayed about the pages for show. But at its best, all Bellow's intellectual influences combine to produce great mind-grabs of paragraphs, astonishing stretches of prose that capture with great perceptiveness, aesthetic and stylish depth just what it is to be human. There is an incident at the beginning of the book (a famous incident, much commented on by the likes of Amis, McEwan and Rushdie) where a dog in Bucharest barks out against the limits of dog experience (for God's sake, open the universe a little more!). Bellow did just that. That is why he was so great.
