Excerpt from An Elementary Treatise on Coordinate Geometry of Three Dimensions The present elementary text-book embodies the course in Solid Coordinate Geometry which, for several years, it has been part of ray duties as

Lecturer in Mathematics at the University of Glasgow to give to two classes of students. For the student whose interests lie in the direction of Applied Mathematics, the book aims at providing a fairly complete exposition of the properties of the plane, the straight line, and the conicoids. It is also intended to furnish him with a book of reference which he may consult when his reading on Applied Mathematics demands a knowledge, say, of the properties of curves or of geodesics. At the same time it is hoped that the student of Pure Mathematics may find here a suitable introduction to the larger treatises on the subject and to works on Differential Geometry and the Theory of Surfaces. The matter has been arranged so that the first ten chapters contain a

first course which includes the properties of conicoids as far as confocals. Certain sections of a less elementary character, and all sections and examples that involve the angle or distance-formulae for oblique axes have been marked with an asterisk, and may be omitted. Chapter XI has been devoted to the discussion of the General Equation of the Second Degree. This order of arrangement entails some repetition, but it has compensating advantages. The student who has studied the special forms of the equation finds less difficulty and vagueness in dealing with the general. ## REVIEW OF ANALYTICAL GEOMETRY OF THREE DIMENSIONS DOVER BOOKS ON MATHEMATICS

- Rather than give a synopsis of the story, I will tell the reader to plan on spending several evenings with this book. I couldn't put it down. It is very romantic, sensuous and worth a second reading. I know I will read all of the Cynster books as they are published. Keep thyen coming, Stephanie. A devoted fan,
- The photographs are fab,then you start to read ,and a little voice says wait a minute,espically as ive just finised his way by kitty kelley,i know he is dad ,and she's his little chicken,but how anyone in

there right mind would fill a book cover to cover with such sugar sweet garbage,as this is beyond me,unless of course your ego and arrogance is higher than everest,now where would she have got that from,her explaining away the acts of violence and cruelty,of one of the most feared performers to ever tread the boards,are airily brushed away with "hell get mad,and youll get mad",but if you face him them all will be well, ah shucks ,that is if your head is still on your shoulders,here and there,the veneer

seems to slip,such as when describing Richard Burtons,tribute to sinatra,at a luncheon in sinatras honour.She commends burtons tribute,then icily adds his words were by someone else, burtons diaries (Rich a life)leave no illusions of he really thought of sinatra,somehow i get the feeling this didnt escape her,its these little cracks in the facade, that show the true nancy, like father like daughter,sorry honey you dont fool me for one minute, little chicken,little vulture,more like it.
