REVIEW OF HARCOURT SOCIAL STUDIES GRADE 5 TEACHER EDITION

- There is a few books that have lived throguh more a century that deserve their classic status. 'Dune' is very likely one of the most brillant worlds ever imagained and also one of the most ingenious books you will ever read. Frank Herberts genius at creating a true and real culture is always overwhelmingly apparent. His stunning creations of literature, history, religion, and culture reflect and could very easily be our world.Set on the planet Arrakis, the only in a universe where the entire population depends on a spice called melange, Arrakis is the only planet that produces this staple. The king and queen of House Arrakis, Duke Leto and Lady Jessica have a son named Paul and they have been assigned to watch this planet. But getting there is only the beginning.....Although very slow at times, Dune is truly a great book. Hard to get into at times, it is absolutely worth the read. This book will be read by me for many years to come. My only regret is that I will not be able to read it for the first time. The only warning is that the books that follow have only gotten much, much, poorer.

- I am an avid SF Fan who has long been about to read "Dune", and this summer I finally started. I really had high expectations, especially after reading all the raving reviews in this forum.Sadly, I found this book hard to get into, slow-paced and a little too confused to really catch my interest. I made it through just because I felt I had to, and was actually relieved when it finally ended and I could start reading the next book that I had in line waiting for me. Not recommended!
