REVIEW OF CHAPTER 31 THE NERVOUS SYSTEM ASSESSMENT ANSWERS

- you may not take me seriously because i am a teenager but i am a big fan of the harry potter books. larry potter pails in comparison to harry potter and basically any other book it also uses similar termonoilgy and is a copycat that is why i even brought up harry potterso dont waste your time reading this book life isnt long enough

- I have one, and sent one as a gift this holiday. I received compliments on the book, and after reading through it myself, I have to say, what a wonderful winter read for anyone, who likes Christmas holiday traditions, folklore, and history. Not a dry, "text", but an interesting blend of past traditions, and from where many of our holiday celebrations may have evolved. Loved the illustrations, and information regarding other cultures' contributions. It doesn't proseltize any school of religious thought, but is informative. I thoroughly enjoyed this book, and would recommend it to anyone who enjoys the holidays, and who has an open mind.
