REVIEW OF IF8791 SPANISH ANSWERS

- I read this book maybe 4 or 5 years ago, and I don't remember a whole lot of the details, so I cannot give it a perfect 5. I do remember that it was a really cute book, with a good ending. I reccomend it, but for younger kids, seeing as it's short with easy vocabulary and big print. I was probably in 4th grade when I read it and I really enjoyed it, so I hope other young kids will read it and enjoy it as much as I did.:)

- This book is more analogous to O'Reilly's *nix in a Nutshell series than to their Java in a Nutshell series. It is a very quick ready reference to the notation with some minimal explanatory material. It is only useful to practitioners. Beginners should read Fowler first, but this will then flesh out the detail Fowler misses. Alternatively get the OMG guide in PDF, it covers the same ground but in less usable electronic form.
