## REVIEW OF SHIBAURA SD 1500 MANUAL

- This novel is set in a location I have never been. I've never been anywhere remotely like this location. The situations they run into are very different from my life, only on a few occasions have the same sort of things happened to me. In this way it can be nothing but the genius of John Steinbeck's writing, that helps even me relate to this story. The story is

very simple, because it is just a carriage for the complex characters to evolve and travel in. "Mack and his boys", a group of guys that would be considered crooks unless you got a closer look at them, have been helped more than once by a kindhearted man named Doc. To show their gratitude they decide to give him a good party. Their many enterprises and expeditions make up a lot of the story in this book. But Steinbeck uses another writing technique on top of that, almost to get the reader feeling like they've lived in Cannery Row all their life. What he'll do is about every other chapter he'll have a really short chapter that will just give a quick glimpse of the life of somebody who hardly relates to the story. It sounds obscure and a little disorienting but it works perfectly for the idyllic and nostalgic feel that this book portrays. Using a blend of one simple story and many little vignettes, John Steinbeck portrays life perfectly. Every character in this novel is their own human being, he doesn't slight them because they are only mentioned on a few pages, he gives the Chinese man who walks through Cannery Row every evening as much thought as Mack and Doc. It's moving because every character's always changing and evolving. I'm sure anyone who read this book would find a character for them. Cannery Row convinced me that John Steinbeck is one of the greatest character creators and he can weave incredible stories around his masterpieces. John Steinbeck never flinches away from life he takes it fully into his novels without becoming gratuitous in any way. Cannery Row was an ingenious novel about real life. Some of the best proof of that statement is the way that not only the characters evolve but our perceptions of them evolve.

Mack is a hood but he's also a nice guy that tries to help people out... when he's not swindling them. The prostitutes that play big roles in this novel are sophisticated and caring. Steinbeck makes no assumption of any human nature in this novel and he doesn't let the reader either. Cannery Row is a beautiful representation of real life. Steinbeck completely takes on the

growing organism of Cannery Row and works with it, shapes it, becomes it. He did it so well that in the end it's not even his novel: it's the readers. I would recommend this book to anyone from a teenager, to a middle aged person, to an elderly person.
