anyone who wants to understand contemporary international relations.

[A Brief Introduction](#) OUP Oxford

This is a first edition core text for freshman/sophomore-level courses on International Relations—the second largest course market in political science. Introduction to international politics courses typically have multiple goals. On the one hand, instructors seek to introduce students to the discipline through readings and discussions of foundational theoretical perspectives and ongoing debates. On the other hand, instructors seek to help students become informed participants in policy debates about foreign policy and international politics issues by highlighting pressing contemporary issues. Effectively addressing both concerns requires more than simply including both topics in the course syllabus or in a textbook. It requires making systematic linkages between theory and policy. This is a long standing challenge in international politics, one raised many years ago by Alexander George in *Bridging the Gap* in which he called for greater communication between academic scholars and practitioners. This text seeks to link theory and policy in an organized and efficient fashion that does not ignore or slight the conceptual discussion of international relations or simply chase newspaper headlines. Chapters are organized around “Global Challenges and Policy Responses.” The challenges are presented as concrete policy problems relevant to the theme of the chapter. The discussion of responses emphasize concrete actions being taken or proposed by international organizations, the foreign policies of key states, international agreements, and actions taken by NGOs. Theoretical insights are used to help students understand challenges, think about solutions, and learn from the past.

[Introduction to International Politics](#) K.H. Erickson

This new volume explores the theory and practice of war and peace in modern historical context. In fifteen clear and concise chapters, this book hits the high and low points of international politics over a two hundred year period, plus a brief foray into the future out to 2025. *War, Peace and International Relations* serves as an excellent introduction to the international history of the past two centuries, showing how those two centuries were shaped and reshaped extensively by war. This book takes a broad view of what was relevant to the causes, courses, and consequences of wars. This upper-level textbook is an invaluable resource for students of strategic studies, security studies, international relations and international history.

[The Societal Approach](#) Edward Elgar Publishing

This new edition has been updated in light of current events and ongoing debates and includes a new chapter on feminism, post-structuralism, and post-colonialism. It provides a highly readable introduction to the principal theories in international relations, combining original analysis with a range of learning features.

International Relations: a Very Short Introduction Routledge

Shawn C. Smallman and Kimberley Brown's popular introductory textbook for undergraduates in international and global studies is now released in a substantially revised and updated third edition. Encompassing the latest scholarship in what has become a markedly interdisciplinary endeavor and an increasingly chosen undergraduate major, the book introduces key concepts, themes, and issues and then examines each in lively chapters on essential topics, including the history of globalization; economic, political, and cultural globalization; security, energy, and development; health; agriculture and food; and the environment. Within these topics the authors explore such diverse and pressing subjects as commodity chains, labor (including present-day slavery), pandemics, human rights, and multinational corporations and the connections among them. This textbook, used successfully in both traditional and online courses, provides the newest and most crucial information needed for understanding our rapidly changing world. New to this edition: *Close to 50% new material *New illustrations, maps, and tables *New and expanded emphases on political and economic globalization and populism; health; climate change, and development *Extensively revised exercises and activities *New resume-writing exercise in careers chapter *Thoroughly revised online teacher's manual

Perspectives and Themes OUP Oxford

A classic textbook on international relations updated to take account of recent research and the consequences of the end of the cold war. Covers both foreign policy analysis and the international environment. Introduces students to methodology and international relations and looks at the important role now played by multinational corporations and at the independences that have formed in the last two decades.

- Aids Introduction To International Relations viewers make a decision which publications to spend more time in

Stay tuned for our following section where we will certainly dive deeper into the benefits of Introduction To International Relations.

[A Critical Introduction](#) Manchester University Press

International relations affects everyone's lives: their security, economic well-being, rights and freedoms, and the environment they share. Recently we have seen the transformation from a world of empires to today's world of sovereign states, which are enmeshed in a complex array of international institutions, all exercising degrees of political authority. The new global organization of political authority has far-reaching consequences. This Very Short Introduction untangles this complex world, providing an accessible framework for understanding the contours of global political change. Christian Reus-Smit treats theory as an indispensable tool for grasping international relations, but demystifies theorizing, introducing it as an everyday human practice. He surveys a range of theories, from realism to feminism: reading them as contrasting perspectives on the global organization of political authority. Historically, such organization has been shaped by diverse social forces, four of which are discussed in detail: shifting patterns of warfare, changing economic conditions, struggles for rights, and the politics of culture. Reus-Smit concludes with a reflection on the future of international relations in an era of profound global change. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

War, Peace and International Relations Macmillan International Higher Education

This is a major new edition of a highly regarded textbook on International Relations theory which combines coverage of the main contending theories and approaches with cross-cutting coverage of key current issues and debates; of the philosophical foundations of IR theory; and of why different theories are addressed to different research agendas.

Concepts of International Relations, for Students and Other Smarties Cambridge University Press

This outstanding book is the first comprehensive introduction to the English School of International Relations. Written by leading ES scholar Barry Buzan, it expertly guides readers through the English School's formative ideas, intellectual and historical roots, current controversies and future avenues of development. Part One sets out the English School's origins and development, explaining its central concepts and methodological tools, and placing it within the broader canon of IR theory. Part Two offers a detailed account of the historical, regional and social structural strands of the English School, explaining the important link between the school's historical projects and its interest in a societal approach to international relations. Part Three explores the School's responses to the enduring problems of order and justice, and highlights the changing balance between pluralist and solidarist institutions in the evolution of international society over the past five centuries. The book concludes with a discussion of the English School's ongoing controversies and debates, and identifies opportunities for further research. For students new to the topic this book will provide an accessible and balanced overview, whilst those already familiar with the ES will be prompted to look afresh at their own understanding of its significance and potentiality.

An Introduction to International Relations Palgrave Macmillan

Of undoubtable relevance today, in a post-9-11 world of growing political tension and unease, this Very Short Introduction covers the topics essential to an understanding of modern international relations. Paul Wilkinson explains the theories and the practice that underlie the subject, and investigates issues ranging from foreign policy, arms control, and terrorism, to the environment and world poverty. He examines the role of organizations such as the United Nations and the European Union, as well as the influence of ethnic and religious movements and terrorist groups which also play a role in shaping the way states and governments interact. This up-to-date book is required reading for those seeking a new perspective to help untangle and decipher international events. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

[Introduction to International Relations](#) Taylor & Francis

As with the first edition this introductory book sets out a framework for the consideration of international relations by identifying four essential elements in the analysis of contemporary world politics: the international arena; the international agenda; processes and power; and order, justice and change. The revised edition has been completely revised and re-designed with more features and illustrations. The content has been thoroughly revised and updated to take into account the many changes in world politics since the first edition was published in 1990. The new edition includes more material on international political economy, conflict and conflict management, the global environment and regionalism.

[Introduction to International Relations](#) OUP Oxford

Existing textbooks on international relations treat history in a cursory fashion and perpetuate a Euro-centric perspective. This textbook pioneers a new approach by historicizing the material traditionally

taught in International Relations courses, and by explicitly focusing on non-European cases, debates and issues. The volume is divided into three parts. The first part focuses on the international systems that traditionally existed in Europe, East Asia, pre-Columbian Central and South America, Africa and Polynesia. The second part discusses the ways in which these international systems were brought into contact with each other through the agency of Mongols in Central Asia, Arabs in the Mediterranean and the Indian Ocean, Indic and Sinic societies in South East Asia, and the Europeans through their travels and colonial expansion. The concluding section concerns contemporary issues: the processes of decolonization, neo-colonialism and globalization – and their consequences on contemporary society. History of International Relations provides a unique textbook for undergraduate and graduate students of international relations, and anybody interested in international relations theory, history, and contemporary politics.

Theory and Practice Routledge

First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Introduction to Global Politics E-IR Foundations

The New York Times Bestseller "A superb introduction to the world and global issues. Richard Haass has written something that is brief, readable, and yet comprehensive—marked throughout by his trademark intelligence and common sense." —Fareed Zakaria An invaluable primer from Richard Haass, president of the Council on Foreign Relations, that will help anyone, expert and non-expert

alike, navigate a time in which many of our biggest challenges come from the world beyond our borders. We live in a global era, in which what happens thousands of miles away often affects our lives. Although the United States is bordered by two oceans, those oceans are not moats. And the so-called Vegas rule—what happens there stays there—does not apply. Globalization can be both good and bad, but it is not something that individuals or countries can opt out of. The choice we face is how to respond. The World focuses on history, what makes each region of the world tick, the many challenges globalization presents, and the most influential countries, events, and ideas, to provide readers with the background they need to make sense of this complicated and interconnected world.

American Foreign Policy and the Crisis of the Old Order Routledge

Invaluable to students and those approaching the subject for the first time, An Introduction to International Relations, Second Edition provides a comprehensive and stimulating introduction to international relations, its traditions and its changing nature in an era of globalisation. Thoroughly revised and updated, it features chapters written by a range of experts from around the world. It presents a global perspective on the theories, history, developments and debates that shape this dynamic discipline and contemporary world politics. Now in full-colour and accompanied by a password-protected companion website featuring additional chapters and case studies, this is the indispensable guide to the study of international relations.

The Oxford Handbook of International Relations Routledge

The Oxford Handbook of International Relations offers the most authoritative and comprehensive overview to date of the field of international relations. Arguably the most impressive collection of international relations scholars ever brought together within one volume, the Handbook debates the nature of the field itself, critically engages with the major theories, surveys a wide spectrum of methods, addresses the relationship between scholarship and policy making, and examines the field's relation with cognate disciplines. The Handbook takes as its central themes the interaction between empirical and normative inquiry that permeates all theorizing in the field and the way in which contending approaches have shaped one another. In doing so, the Handbook provides an authoritative and critical introduction to the subject and establishes a sense of the field as a dynamic realm of argument and inquiry. The Oxford Handbook of International Relations will be essential reading for all of those interested in the advanced study of global politics and international affairs.

World Politics Routledge

This clear and concise text takes as its starting point the theoretical frameworks that are the foundation of current international relations. Kaufman explains the traditional theories, but also makes a place for understanding the areas that lie outside of or cannot be explained by those approaches. Although levels of analysis are the primary unifying force, the book also assesses what this approach does not explain about the contemporary international system.

Advanced Introduction to the Politics of International Human Rights OUP Oxford

An engaging and sophisticated new IR text that will inspire a new generation of scholars and

practitioners

For visitors who prefer a much more tailored touch, curated collections are an excellent option. These collections are often created by sector specialists or enthusiasts and offer a checklist of must-read summaries for various styles. You can locate them on blog sites, podcasts, and even social media teams.

With these pointers, you can find the ideal Introduction To International Relations book recaps for your rate of interests and preferences. Pleased reading!

REVIEW OF INTRODUCTION TO INTERNATIONAL RELATIONS

- This book identifies and describes phenomena that most would assume to be foreseeable and evident when observed as historical event. However such manic human behavior keeps occurring over and over again, which inevitably (as history observes) have destructive consequences. As many

others have noted, this book is hard to read and it could certainly be written using much simpler vocabulary and probably in a fraction of its length. However one must keep in mind that this book was initially written almost 200 years ago! Personally, I value this book for the insights it offers into the history of crowd's delusions. Consequently, the reader will hopefully be able to identify such manias in the future and act accordingly - assuming that he can remain detached enough from the mania itself.

- I'm surprised, pleased, amazed, put your adjective there... it's one of the best technical books I ever read, and by far the most entertaining! I congratulate the authors for making learning so easy! I am taking an 'official' presentational j2ee course and I have to tell you, I have learned more in two nights reading this book than in 2 months of course. I have taken a lot of courses on study and teaching techniques (I'm a teacher myself) and I think this is the way you have to present a technical content. You end with a solid understanding of the subject, you remember the subject... and you smile at it! can you ask for more?
