REVIEW OF SYSTEM DYNAMICS DEREK ROWELL SOLUTIONS

- This book reads like a black and white detective movie. I loved the first person narrative. It was as if the main character was talking just to me. The author deserves a gold Rolex watch.
- This is a giant of an achievement, don't be fooled by the harmless sweet appearance and tone of this book. It's full of deceit and lies. And most of all misdirection. I am not one to tell about plot, who cares to reveal the story. But in this book, one can feel the touch of genius...not at first, but later in the book, when you begin to realize what is being done to your mind. In this brilliant twist on the conventions of the modern novel,

there is a deceit made all the more brilliant and delightful because of its subtlety. I won't ruin it for you. In the end, the author reveals to you who really tells the story of a life, including your own, and that is the genius of this deceptive book---- it gives you the reader this extraordinary insight. But you

could miss it and say, what is going on? To speak is to not know it. It is there for you, waiting quietly, with no pointing, no shouting, no direction at all, otherwise, you would not ever feel the boundaries of your own story. There is a reason this author is so acclaimed.
