REVIEW OF ESSENTIALS OF RADIATION BIOLOGY AND PROTECTION STUDENT WORKBOOK

- Someone said in a review that this book isn't applicable for people alive today, that it was only relevant back when it was written a little over 60 years ago. I can't disagree more. The book is just as relevant now, if not more so. In one of the essays from this book, Jung accurately predicted today's raging "cultural battles" between proponents of so called "ID" theory and those who espouse Evolution, when he said, correctly, that natural science has for all practical purposes shot down the whole notion of anything "magical" or "supernatural" about the psyche. It's puzzling that in light of the overwhelming mountain of scientific evidence to the contrary, a vast majority of people in the U.S. still believe in "eternal life", and "heaven" and

"hell". Maybe if those who believe in whatever religion they think is the only true religion could loosen up a little, and realize that all religions are organized, but slightly different interpretations of our collective conscious handed down to us through the ages, we might not have problems like 9/11 and ongoing wars, not to mention the ugly politics in this country, all driven by the sentiment "My God is the only right God". While indirectly discounting the ideas of "heaven" and "hell", as those terms, or their endless variations are commonly defined in most of the world's religions, Jung does point out that there is still a mysterious quality about thoughts, feelings, emotions, etc. separate and apart from "reason". Maybe that "spot" is where the "soul" or "spirit" truly resides. If there were a way for people to find this within themselves, they might just find "God" at last. And if this type of personal, inward looking belief system could be more widely developed, we, as humans, might find better ways to get along. Not to rain on anyone's religious parade, but the religions "du jour" (or of the current times), will be no more relevant millenia from now (or sooner?) than the religions espoused by the Greeks, the Romans, the Zoroastrians, Druids, or the Pagans before us. Having said that, we're damned if we have religion and damned if we don't (no pun intended), because one argument that Jung makes for religion being beneficial for society is that if we didn't have religion, God only knows whether we'd all kill each other or not (once again, no pun intended). Jung's bottom line argument is that you're not going to find God in your local synagogue, church, temple, or mosque, in spite of our collective conscious efforts being channeled toward those places.

- What a beautiful book! I thank my goodreads pals for recommending this gem of a book which takes place a very long time ago, when people believed in witchcraft and faeries. Marnie is a young woman of sixteen years who is forced into marriage with an older man to save her family from certain poverty when her father is struck down by illness and can no longer perform his duties as overseer on their lord's estate. Luke Isherwood, Marnie's husband, is one of the lord's sons and his inheritance is an old, rundown cabin by the sea. He is happy with this arrangement because the cabin holds a hidden treasure that will make him richer than a king, and it is to this place that he brings Marnie to start their new life. Marnie, young and inexperienced, soon finds marriage to Luke an ordeal and though, he is not a cruel man, Luke is neither interinterested in making his wife happy nor willing to ease her distress, as he is consumed with the search for treasure. When a horrible fall removes Luke from Marnie's life, it seems that all will be well with Marnie, but for the suspicions of the villagers who believe that Marnie is responsible for Luke's death. The fact that she has befriended the town madman, Raver, and has taken him into her home doesn't help Marnie's situation. Sheryl Jordan writes a beautiful story of love and innocence, in the face of hatred, prejudice and ignorance. It is a timeless tale that is still relevant as it describes the consequences that arise from gossip, false witness, and a desire to unwittingly commit evil for the sake of "justice". This is one little book that you just can't put down. Ms. Jordan is an exceptionally talented writer who effortlessly draws you into her story, making you care instantly for Marnie, Father Brannan and, most of all, for Raver--lovingly renamed Raven by Marnie because she is able to look beyond the obvious into the beauty within--unlike her hateful neighbors.
