REVIEW OF 4TH EDITION APPLIED BUSINESS MATH ANSWERS BLOWERORE

• Wow! This book was amazing. I had no idea that Marie went through all that she did. I had only heard stories and those were only really brief explanations. When I read this book I found out a lot about who I am and what types of dreams are really those that are able to come true. I had no idea of the hardship and disappointment that Marie went through. Actually, until I read this book I had no idea of who she was and what she did to contribute to physics or chemistry. This book really demonstrates that dreams can come true and that if you work at something hard enough then it will pay off. I believe that the author, Barbara Goldsmith, wrote this book to tell us what Marie Curie was really like. She was compelled to write this book in order to show the readers what was really happening during that time and what Marie really had to work through to get to where she did. She needed to show that Marie didn't get to where she was on her own, but rather it was because of her gift and that of support from her husband and loving family, and some supporters. I don't believe that anyone really knew that her daughter had taken over the work that her mother had started or that Marie herself was a very depressed woman and that is what could have driven her to make all of these accomplishments. Goldsmith had to write this in order to share with the public all the beauty that Marie brought to the science and the life at the time in which she lived in. This was not an easy time. Women were regarded as not having the knowledge to do what men did, but Marie was different and she proved that time after time, and her gift of intelligence brought her to the famous person as we know her today. This is why some one had to write a story about her, to share her life and let it help in some decisions of problems in lives of others including her readers like my self. I do believe that someone should take the time to read this book. It was a little boring in the beginning but that might have had to do with the fact that I had to read this book for a physics project. But, after I got into more depth of the

book I started to make really good life connections between Marie and my self. This book shares some of life's lessons even though you cannot tell what they are. Goldsmith really does a great job of getting the reader into certain areas of the life of Marie and then just brushes over others. I felt that this book was well done but is more directed towards girls and women. It talks more about the hardship of women and how they were looked down upon. This book helps someone see what dreams can come true and those that will always be dreams, also that some things don't come naturally but that you have to work to get anywhere. For girls it is to trust your instincts and to not let others decide your life. I have to say this book was the best book that I have ever read and I don't read that many books (trust me). I would tell anyone that they should read this book just to get another point of view of a certain individual.

• Very few books have influenced me deep down as has *Lust for Life*, the classic biography of Van Gogh, arguably the greatest impressionist of all times. Gogh, led a life in extreme poverty till his death, partly because his impressionist style was not accepted as a "style" until much later, and partly because he refused to give in however difficult it got. The life: Van Gogh led a remarkable life. And a very painful one. Despite being one from a well placed family, he led himself from one occupation to another - unable to find himself suited to any one of them. Misunderstood by everyone except his dear brother Theo, Gogh was forever alone. His sensitivity, especially to the pain felt by other people often led him to put himself through punishing tasks and challenges. An episode from his life that was particularly touching was when he was serving as a preacher in an impoverished mining town named Borinage. In an attempt to save men from dying from the mercilessly cold winter plus dangling unemployment, Gogh gives away all his clothes, wrapping himself with grocery bags and utility box wrappers. In another episode, Gogh walks for days without food and proper shoes, ultimately leading himself to a breakdown. The author brings Gogh in front of our eyes. We could see him. We could feel him. And of course, we cried as well. The artist : During the course of his life, Gogh discovers his relationship with the (sketch and charcoal) pen and later colors. He painted as he saw things, and anyone who has seen his paintings knows that they speak volumes. The author very effectively delves into the psyche of Gogh through his experiences. Gogh's involvement with the people around him made way for his intense portrayals in form of sketches and paintings. If you have seen "the potato eaters" you know what I mean. The book tells the stories behind many of his now greatly acclaimed paintings; from potato eaters, to self portrait, to the painting on "Pigeon" the prostitute, to starry nights..each one now seems to throb with life when I see them. The greatness: Is in the fact that the human face of Gogh neither diminished nor tired throughout his life. The dazzling brilliance shined though the darkest nights. Creativity never gave in. In the end, the body gave in, the spirit did not. The writer: Brings life into sentences, paragraphs and pages. It seems I've known Gogh all my life. Read it once to check for yourself.
