The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-

Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, *Steak* is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

REVIEW OF KUBOTA ZD21 MANUAL

- Nietzsche's statements are often bold, startling and thought provoking to the reader. Against "moralists" and "religions" (esp. Christianity) such statements might invoke hostility on Nietzsche himself by the reader. Who does understand Nietzsche, except Nietzsche himself? The reader must go beyond this degradation — for to see the world of Nietzsche one must see Nietzsche from within. Nietzsche's philosophy of a "philosophy of life" (Paul Tillich) is the only one that is. Much can be learned from reading Nietzsche. Nietzsche valued life and perhaps understood it more so than the "moralists" of yesterday and today. -

First purchase and reading Nietzsche's philosophy, I believe, rests on his assertion: "Whether we have grown more moral" (TI, 37). Nietzsche was a man who had no need of pity or "convictions" of any certainty, that be called "truth" (the former, i.e., certainty, which only limits perspective). Nietzsche, firstly, was a philologist (the study of ancient literature), followed by that of a psychologist (how certain "concepts" in literature "seduce" man), and lastly, that of a physician (how these "seductions" harm man's health to the point of man becoming "morbid"). Asserting himself to be all three, Nietzsche's philosophy and Nietzsche as philosopher sprang forth with the statement: "Revaluation of All Values" (AC, 62). Going back to the assertion

above, "whether we have grown more moral," Nietzsche is concerned with the "first order of rank," and that first order is the creation of a "higher type" of "morality," that which man has been deprived of and denied, especially from "Christian morals." He is concerned with freeing man from this "enslaved morbid morality" and placing him on a ladder that ascends to a "higher type" of man: the Overman or Superman. It is the "Will to Power" for More Life that says "Yes to Life. But then again, this is Nietzsche's interpretation of the history of morals" But what better interpretation is there than "experience."- Second purchase and reading

- I received this book on time and in good shape. The book has lots of stories that lead you to an interesting climax

but the climax never comes.
