REVIEW OF ADVANCED ACCOUNTING FISCHER 11TH EDITION TEST BANK

- Where to begin? This story is amazing! Captivating, enchanting, and utterly engrossing. I couldn't put it down once I started reading. Ok, maybe it helped that I was on a plane for the first 75% of the book, but still, I would've easily fallen asleep had it been boring. John Carter is our valiant hero who is transported to

Mars and finds himself with astonishing strength and agility, neither of which can save him from capture by hostile Martians, but both of which help him survive his captivity. The classic story of a hero, his unusual sidekicks, and the beautiful damsel in distress. From the development of the different cultures and races on Mars to the explanation of how they survive the atmosphere, the story was plausible, albeit whimsical. Usually when I read sci-fi, it seems contrived and all-too-convenient, but this book is well-planned and masterfully told. It's free - read it; there's a reason it's a classic.-- Emma D, aka Anna Zimmerman

- Edgar Rice Burroughs will always be best known as the creator of Tarzan. Though not as well known, another of his

creations, John Carter of Mars, is probably as compelling a character. A Princess of Mars (1912) is the first of eleven books in Burroughs Martian series. At under two hundred pages, it's a tight, quick read with action on nearly every page. John Carter is a civil war soldier transported to Mars where he immediately finds more than a handful of trouble and action (not to mention, a beautiful princess in need of rescue). The writing is straightforward pulp at its best. Carter isn't a deeply flawed character as we might see today. He's more of the classic hero. I'm not sure if even Kryptonite could harm him, but due to the lesser gravity of Mars, he is able to leap tall buildings in a single bound. Aside from this, I find it exciting how well a century-old science fiction novel can

hold up, given the unprecedented technological and societal changes which have taken place in the time since its conception. That the story doesn't feel so dated as to be dismissed outright says a lot about Burroughs' skill as a writer. The Martian culture painted here is rich and true. The characters breathe. The history of the civilization is believable and well thought out. Very rarely did I find myself pulled from the reality of the tale by elements that

seemed dated or unreal to a twenty-first century reader. Burroughs even envisioned a GPS (Global Positioning System) with direction-finding capabilities. He called the thing a compass, but hey, we still call those contraptions we carry around phones, even though they do three times as much as a Star Trek tricorder. This is an excellent read and if you're looking for a good old-fashioned sci-fi romp, well worth the time.
