REVIEW OF SOBRE EL APRENDIZAJE ORGANIZACIONAL CHRIS ARGYRIS

- I think that the first three books of the Foundation series ("Foundation", "Foundation and Empire" and "Second Foundation") are excellent. The others maybe are of less quality but as a whole the series is a classic and a must-read group of books for everybody that likes science fiction.

- The second book of the original trilogy, this book is an amazing follow on to "Foundation". The seven books of the Foundation series together form what I consider to be the most complete and astonishing blend of deep reality with science fiction. The septet, for the uninitiated, include (in the order I believe they should be read in): Prelude to the Foundation, Forward the Foundation, Foundation, Foundation and Empire, Second Foundation, Foundation's Edge and Foundation and Earth. Do yourself a favor, buy them all. If you don't drool over the books by the time you're done with them, read them again.
