REVIEW OF 1999 POLARIS INDY SNOW LE SERVICE HIGHLY DETAILED FSM TOTAL 610 PAGES INDEXED SEARCHABLE

- Hunting Badger is another of Hillerman's novelistic odes to Indian Country, this time praising the eighty-five million acres known as Four Corners or the Big Empty. The cast of characters is familiar: the Legendary Lieutenant (Joe Leaphorn), the Woman Professor (Louisa Bourebonette), the Former Acting Lieutenant (Jim Chee), and What a Woman (NTP officer Bernadette Manuelito). As always, the characterizations are sharp and consistent, and the story line weaves through endless canyons of imagination before giving away the identity of the actual villain one-half to two-thirds of the way through. Like other Hillerman fans, I love these characters, their ever-present "wry" faces, the lightening-bolt transitions from scene to scene, the enriched atmosphere of painted sky- and landscapes and, most of all, the heightened anticipation as one closes in on the plot resolution (which here is not up to the standards set in previous Hillerman works such as People of Darkness, The Dark Wind and A Thief of Time, but definitely does increase your pulse rate and reading speed as the light at the end of the tunnel - a muzzle flash, in this case - intensifies. But a number of things about this work bothered me. The most obvious: the atrocious editing. The reader is constantly required to line edit: see, e.g., p. 18, line 2: "... Leaphorn had starting thinking about ..."; p. 19, line 3: a "wasn't" that should likely be a "didn't"; and you can find plenty more at pp 20, 35, 49, 64 ("It you see ..." rather than "If you see ..."), 66 (Chee referred to as "Cree"), 90, 95 ("... he'd hadn't heard it."), 184-85 ("... he was hunting tered around out of the trash can, ..."), 189 ("He looked a Chee to see ..."), 192 and 244. The overall effect of the foregoing examples is admittedly de minimis. But the going gets worse. At p. 124, line 5, we have Special Agent Cabot's dialogue tagged as "Lodge said." Then at p. 186 the page starts out with part of the paragraph missing entirely: "reacted, Leaphorn thought. And he noticed ..." What that refers to, I haven't the slightest. And back at p. 85 we have Leaphorn smelling "... the outdoor scents of hay, horse manure, sage and dry-country summer invading through the open window", whereas the only prior reference to the window was at p. 83, lines 10-12, where Leaphorn was putting "... his forehead against the glass, shaded his eyes and looked into what seemed to be a bedroom ..." My margin note: What open window? A similar non sequitur occurs at p. 248, lines 9-10, where we discover for the first time that potential villain Jorie is "... a lawyer and admitted to the Utah bar ..." My margin note: Where did that come from? It also bothered me that at p. 192, lines 19-26, "Leaphorn looked very interested ..." when he hears essentially the same information (a description of the coal digs where Badger might be holed up) that he's already heard from Chee on p. 165 at lines 5-8. A similar instance of Chee and Leaphorn forgetting they've already discussed something occurs at p. 240, lines 12-18, where there is a repeat of their previous conversation at p. 216, lines 1-4. The bottom line here is that when I buy a first edition hardcover, I expect it to evidence some decent editing. Apparently Harper Collins doesn't share this opinion. Nowadays, speed is the creed and few publishing houses seem to spend time on essential details, perhaps because they're too busy distributing hype, counting beans and devising Internet wampum. It's like the biggest software company in the world, which leaves it to consumers to find all the flaws in its programs. I find myself asking: What ever happened to editors like Max Perkins? There's a photograph of Thomas Wolfe in A. Scott Berg's biography Max Perkins, Editor of Genius: Wolfe is standing over one of three voluminous crates of loose manuscript which, under Perkins' guidance, would eventually become Of Time and the River - a massive editing job which occupied Perkins for over two years. Today it appears that no one is willing to spend even two hours to tidy up a gifted writer's manuscript. All in all, Hunting Badger is a very good read. I only wish Mr. Hillerman would change publishers and get the editing his writing deserves. Some of us might even volunteer to do it in exchange for a sneak preview of what Leaphorn, Chee, Largo, Cowboy Dashee and the others will be doing in the twenty-first century. Do buy the book - but wait for the paperback version. Maybe by then the editors at Harper Collins will have read the hardback - and made some direly needed changes. - Hunting Badger is one of Hillerman's best novels with Chee-Leaphorn. I thought the plot was well conceived, tight, and completely enjoyable. Its amazing how Hillerman can capture the scenery of the Southwest in just a few sentences. I found it so easy to picture all the scenes that were so vividly written. As for the mystery itself, the book was well paced and brought things to a satisfying ending. Hillerman just seems to get better and better with each new book. I can hardly wait for the next one.
