REVIEW OF ICE UK CAREER APPRAISAL EXAMPLES

- I have always enjoyed the adult series of Left Behind books. The kids books are just as good. The kids interact with the characters from the adult series, experience the same events, etc. However, since the main characters are teens, these books can appeal to younger readers. So far, the stories haven't had the ups and downs that the adult series has had. The adult series has books that are a lot more boring than others. The kids series seems to be good in every book. These are not for really young kids, but would be appropriate for young teens. I enjoy them and I am an adult.

- YOU HAVE TO READ THIS BOOK...ABSOLUTLY FANTASTIC!!!!This is, without a doubt, the most exciting analytical exploration of Herman Melville's "Moby-Dick" ever written. When I finished reading an advanced copy of this book, I had to go back and review everything I could get my hands on concerning Melville's "Moby-Dick." Dr. Birk's insights ignited my interest in the field of astrological and zodiacal symbolism. I was fortunate enough to be invited to one of the showings of Dr. Birk's insightful decyphering of "Melville's Hidden Astrological Framework" for "Moby-Dick" at the Arizona State University Planetarium by its director, Mr. Dan Matlaga. When the show was over and the lights

came back on, virtually everyone was still seated, quietly contemplating Dr. Birk's creative genius...for the last 150 plus years Melville's elusive secret of the zodiac was there all the

time...right under our noses...all we had to do, as readers, was to let Dr. Birk show us how to look up into any clear night sky and dare to reach out for the stars!
