REVIEW OF JOEL FRIED POLYMER SCIENCE TECHNOLOGY SOLUTION

- I love the Richard Jury series...witty and challenging to those of us who are mystery buffs...trying to figure out who did it. His friend Melrose Plant, who is a wealthy earl who "threw away his titles"....very enjoyable.

- Just come back from holiday in Cornwall, where I spotted this book on a shelf in a small book shop. It egotistically caught my eye because my name is Julia, then I read the synopsis and the idea of cooking through JC's French cook book seemed intriguing, plus I needed a book to read whilst lounging on the beach. I couldn't put it down. 2 days - didn't see a damn thing of Cornwall! Absolutely excellent. Julie's writing is really evocative of New York. Came back home today, caught a chat show on channel 4 with Juliette Lewis on it - she'd be fab as Julie in the film!!!
