KONSEP KONSEP HUKUM ADAT JOENI ARIANTO KURNIAWAN SUMMARY: UNLOCK YOUR FOLLOWING LITERARY EXPERIENCE WITH OUR CONCISE REVIEWS

British West Sumatra, 1685-1825 BRILL

The Indonesian term adat means 'custom' or 'tradition', and carries connotations of sedate order and harmony. Yet in recent years it has suddenly become associated with activism, protest and violence. This book investigates the revival of adat in Indonesian politics, identifying its origins, the historical factors that have conditioned it and the reasons behind its recent blossoming. It considers whether the adat revival is a constructive contribution to Indonesia's new political pluralism or a divisive, dangerous and reactionary force, and examines the implications for the development of democracy, human rights, civility and political stability. The Revival of Tradition in Indonesian Politics provides detailed coverage of the growing significance of adat in Indonesian politics. It is an important resource for anyone seeking to understand the contemporary Indonesian political landscape.

The Improvement of Human Reason Oxford University Press

In July 1997, twenty-five of America's most influential journalists sat down to try and discover what had happened to their profession in the years between Watergate and Whitewater. What they knew was that the public no longer trusted the press as it once had. They were keenly aware of the pressures that advertisers and new technologies were putting on newsrooms around the country. But, more than anything, they were aware that readers, listeners, and viewers — the people who use the news — were turning away from it in droves. There were many reasons for the public's growing lack of trust. On television, there were the ads that looked like news shows and programs that presented gossip and press releases as if they were news. There were the "docudramas," television movies that were an uneasy blend of fact and fiction and which purported to show viewers how events had "really" happened. At newspapers and magazines, celebrity was replacing news, newsroom budgets were being slashed, and editors were pushing journalists for more "edge" and "attitude" in place of reporting. And, on the radio, powerful talk personalities led their listeners from sensation to sensation, from fact to fantasy, while deriding traditional journalism. Fact was blending with fiction, news with entertainment, journalism with rumor. Calling themselves the

Committee of Concerned Journalists, the twenty-five determined to find how the news had found itself in this state. Drawn from the committee's years of intensive research, dozens of surveys of readers, listeners, viewers, editors, and journalists, and more than one hundred intensive interviews with journalists and editors, *The Elements of Journalism* is the first book ever to spell out — both for those who create and those who consume the news — the principles and responsibilities of journalism. Written by Bill Kovach and Tom Rosenstiel, two of the nation's preeminent press critics, this is one of the most provocative books about the role of information in society in more than a generation and one of the most important ever written about news. By offering in turn each of the principles that should govern reporting, Kovach and Rosenstiel show how some of the most common conceptions about the press, such as neutrality, fairness, and balance, are actually modern misconceptions. They also spell out how the news should be gathered, written, and reported even as they demonstrate why the First Amendment is on the brink of becoming a commercial right rather than something any American citizen can enjoy. *The Elements of Journalism* is already igniting a national dialogue on issues vital to us all. This book will be the starting point for discussions by journalists and members of the public about the nature of journalism and the access that we all enjoy to information for years to come.

International Law and the Environment Routledge

This book analyzes the political, legal, and economic dynamics shaping environmental outcomes across two districts in Aceh,

one of the richest and most expansive areas of tropical rainforest in Southeast Asia. Its central theme is that the present cycle of ecological decline can best be understood in terms of the way political, economic and social forces operate at the district level.

Beyond the Sacred Forest Federation Press

Reflecting new thinking about conservation in Southeast Asia, *Beyond the Sacred Forest* is the product of a unique collaboration involving ethnographic research in Indonesia, Malaysia, and the Philippines. Scholars from those countries and the United States rethink the translation of environmental concepts between East and West, particularly ideas of nature and culture; what conservation might mean; and how conservation policy is applied and transformed in the everyday landscapes of Southeast Asia. As this collection of essays demonstrates, the researchers focus more on folk, community, and vernacular conservation discourses than on those of institutions and the state. Thick with ethnographic detail, their essays provide powerful examples of why social, political, historical, and economic factors are central to the success or failure of conservation initiatives. Natural resource managers and policy makers who accept and work with these factors are likely to enjoy greater and more enduring success than those who simply seek to remove the influence and impact of humans from the landscape. As many of the essays suggest, this requires the ability to manage contradictions, to relinquish orthodox ideas of what conservation looks like, and to practice continuously adaptive management techniques. It requires practitioners who are deeply reflexive and able to focus less on short-term goals and more on long-term engagement with

the relationships between people and nature. Contributors: Upik Djalins ; Amity A. Doolittle ; Michael R. Dove; Levita Duhaylungsod; Emily E. Harwell; Jeyamalar Kathirithamby-Wells; Lye Tuck-Po; Percy E. Sajise; Endah Sulistyawati; Yunita T. Winarto

From Hume to Walzer Crown

“The world today has become one large village. Muslims and non-Muslims live side by side and have to learn about one another, share commonalities and respect differences. At this time more than one and a half billion Muslims live in this village. Some of them are pious Muslims, trying to live in accordance with Islamic rules, whereas others do not while believing that these rules come from God (the Qur’an), from interpretations of His Messenger (the Sunnah) or the consensus of Muslim jurists (ijmâ’), and are at least rules derived via analogy (qiyâs) from the main sources of Islam. Most Muslims think along these lines and agree with the above. The reader should remember that Muslim individuals should live according to Islamic rules in private, but no individual is responsible for implementing Islamic law. In any event, the need to learn the facts about Islamic law is necessary for Muslims as well as for non-Muslims if they live in the same society with Muslims, at least in the sense of general information. In any event, the need to learn the facts about Islamic law is necessary for Muslims as well as for non-Muslims if they live in the same society with Muslims, at least in the sense of general information. We should keep in mind here that only sovereign Muslim states/governments have the legal authority to implement Islamic law. An individual Muslim has no legal

authority or power to implement Islamic law. The law of Islam certainly does not say that every Muslim is obliged to implement Islamic law. It matters not how efficient and popular that individual may be as a brave warrior or a meticulous planner of unlawful and immoral schemes of hatred, terror and destruction. Only people who are properly qualified and trained, and hold a license from Muslim governmental authorities, have the authority to issue fatwâs. Not every Muslim individual qualifies as a Muftî (a jurist-consult or scholar of law who has been given a license to issue fatwâs.). For this reason Bediuzzaman says: “And we know that the fundamental aims of the Qur’an and its essential elements are fourfold: divine unity (al-tawhîd), prophethood (al-nubuwwah), the resurrection of the dead (al-hashr), and justice (al-‘adalah). Al-Adâlah means law. He adds in another treatise: “Let our ulul-amr (satesmen and political authorities) think over implementing these rules”. This book is divided into eight chapters. Chapter I. Because of the many misunderstandings that arise, some terms related to Islamic Law, such as Sharî’ah, fiqh, qânûn, ‘urf, Islamic Law, and Muhammadan Law are explained. Chapter II. Here, in this chapter dedicated to references on Islamic Law, the real added value of this book is found. Chapter III. This chapter looks at four periods of Islamic Law: the period of the Prophet Muhammad, the period of the Companions, the period of the Tabi’în, and an introduction to the period of Mujtahidîn. Chapter IV. We will provide detailed information here on the different law schools and theological divisions. Chapter V. This chapter will be devoted to a period of Islamic law that has been neglected in both old and new books and articles, i.e. the period of Islamic Law after the Turks converted to Islam (960-1926).

Chapter VI. This chapter will focus also on three main subjects: Anglo-Muhammadan law (Indo-Muslim law), Syariah or Islamic Law in Southeast Asia, and Islamic Law in contemporary Muslim states like Egypt, Pakistan, Morocco, Indonesia and Jordan. Chapter VII. We will explain the system and methodology of Islamic Law in this chapter. Chapter VIII. We will give some brief information here on the implementation of Islamic Law, its future; some encyclopedical works on Islamic law, and new institutions of Islamic fiqh.”

In this thoroughly revised and updated edition of the first book-length treatment of the subject, S. James Anaya incorporates references to all the latest treaties and recent developments in the international law of indigenous peoples. Anaya demonstrates that, while historical trends in international law largely facilitated colonization of indigenous peoples and their lands, modern international law's human rights program has been modestly responsive to indigenous peoples' aspirations to survive as distinct communities in control of their own destinies. This book provides a theoretically grounded and practically oriented synthesis of the historical, contemporary and emerging international law related to indigenous peoples. It will be of great interest to scholars and lawyers in international law and human rights, as well as to those interested in the dynamics of indigenous and ethnic identity.

While indigenous peoples make up around 370 million of the

world's population - some 5 per cent - they constitute around one-third of the world's 900 million extremely poor rural people. Every day, indigenous communities all over the world face issues of violence and brutality. Indigenous peoples are stewards of some of the most biologically diverse areas of the globe, and their biological and cultural wealth has allowed indigenous peoples to gather a wealth of traditional knowledge which is of immense value to all humankind. The publication discusses many of the issues addressed by the Declaration on the Rights of Indigenous Peoples and is a cooperative effort of independent experts working with the Secretariat of the Permanent Forum on Indigenous Issues. It covers poverty and well-being, culture, environment, contemporary education, health, human rights, and includes a chapter on emerging issues.

Originally published in 1994, *Folk Law*, a comprehensive two-volume collection of essays, examines the meeting place of folklore - the unwritten law of obligations and prohibitions that are understood and passed on - and jurisprudence. The contributors explore the historical significance and implications of folk law, its continuing influence around the globe, and the conflicts that arise when folk law diverges from official law. Valuable for students and scholars of law, folklore, or anthropology, Renteln and Dundes's extensive casebook marks a rare interdisciplinary approach to two important areas of research.

Addressing the question of how public-policy formulation changed and affected the design and delivery of government programs and services in Australia, this analysis offers descriptive accounts of how public services programs are designed and implemented and how they might be better managed. Modern governments have undergone significant change during the past 30 years and such change has impacted the way governments structure their organizations, deliver services, and relate to their citizenry. Revealing the affects on Australian government, this study also compares both government and nongovernment services overseas.

The popular 1998 reformasi movement that brought down President Suharto's regime demanded an end to illegal practices by state officials, from human rights abuse to nepotistic investments. Yet today, such practices have proven more resistant to reform than people had hoped. Many have said corruption in Indonesia is "entrenched". We argue it is precisely this entrenched character that requires attention. What is state illegality entrenched in and how does it become entrenched? This involves studying actual cases. Our observations led us to rethink fundamental ideas about the nature of the state in Indonesia, especially regarding its socially embedded character. We conclude that illegal practices by state officials are not just aberrations to the state, they are the state. Almost invariably, illegality occurs as part of collective, patterned, organized and collaborative acts, linked to the competition for political power

and access to state resources. While obviously excluding many without connections, corrupt behaviour also plays integrative and stabilizing functions. Especially at the lower end of the social ladder, it gets a lot of things done and is often considered legitimate.

The central Indonesian island of Sulawesi has recently been hitting headlines with respect to its archaeology. It contains some of the oldest directly dated rock art in the world, and some of the oldest evidence for a hominin presence beyond the southeastern limits of the Ice Age Asian continent. In this volume, scholars from Indonesia and Australia come together to present their research findings and views on a broad range of topics. From early periods, these include observations on Ice Age climate, life in caves and open sites, rock art, and the animals that humans exploited and lived alongside. The archaeology presented from later periods covers the rise of the Bugis kingdom, Chinese trade ceramics, and a range of site-based and regional topics from the Neolithic through to the arrival of Islam. This carefully edited volume is the first to be devoted entirely to the archaeology of the island of Sulawesi, and it lays down a baseline for significant future research. REVIEW OF KONSEP KONSEP HUKUM ADAT JOENI ARIANTO KURNIAWAN

- This book was given as a gift, however, I didn't expect the book to be so beautiful! The cover and the page edges were very distinctive. I always appreciate the good bargains I receive from Amazon, however bargain books are sometimes just softcover and might not be like a beautiful first edition. I haven't heard that the book has been read, up to this time.
- "Though I had never written anything more easily," says Lewis about his own book, "I never wrote with less enjoyment... It almost smothered me before I was done. It would have smothered my readers if I had prolonged it." Insightful. The book is

a series of short letters from senior devil Screwtape to Wormwood, his nephew and demon trainee. Screwtape advises Wormwood on how best to deceive his human "patient." It is masterful writing, though rough on the brain at times. Everything is upside down. What is good to Screwtape is bad for us. As Screwtape (Lewis) writes in Letter 21: "You must zealously guard in [the patient's] mind the curious assumption 'My time is my own'." It can be smothering, but that smothered feeling of saturated evil is what makes the book so profound. Screwtape is no red, horned devil caricature. He is subtly diabolical. The aspect I love (hate?) the most: The closings at the end of each letter, "Your affectionate uncle SCREWTAPE." (This is addressed in Letter 31.) Highly recommended, but it's not light reading. One of Lewis' best.
